I. Abstract

This request is for extension of a currently approved information collection.

The Sustainable Fisheries Act (SFA) amended the Magnuson-Stevens Fishery Conservation and Management Act (MSA) to provide for voluntary reduction of excess fishing capacity through fishing capacity reduction (buyback) programs. Excess fishing capacity decreases fisheries earnings, complicates fishery management, and imperils fishery conservation. The statutory objective of a program is “to obtain the maximum sustained reduction in fishing capacity at the least cost and in a minimum period of time.” Buybacks pay fishermen either to: (1) surrender their fishing permits; or (2) both surrender their permits and either scrap their fishing vessels or restrict vessel title to prevent fishing. Buybacks can involve either a Federal or State fishery. Buybacks can be funded via a long-term loan from the Federal government to the fishery (industry-funded buybacks), to be repaid by the industry by post-buyback landing fees, or funded from appropriations (non-industry funded) or other non-loan sources of funds. Programs involving industry financed loans are authorized by section 1111 of title XI of the Merchant Marine Act, 1936.

NOAA National Marine Fisheries Service (NMFS) established programs to reduce excess fishing capacity by paying fishermen to surrender their vessels/permits. The information collected by NMFS involves the submission of buyback requests by industry, submission of bids, referenda of fishery participants and reporting of collection of fees to repay buyback loans. For buybacks involving State-managed fisheries, the State may be involved in developing the buyback plan and complying with other information requirements. NMFS requests information from participating buyback participants to track repayments of the loans as well as ensure accurate management and monitoring of the loans. The fees for recordkeeping and reporting requirements at 50 CFR parts 600.1013 through 600.1017 form the basis for the collection of information.

II. Method of Collection

Paper reports or electronic reports are required from buyback participants. Methods of submittal include mailing of paper reports, electronic submission via the Internet, and/or facsimile transmission.
