50 CFR Part 622

[Docket No. 160426363–7275–02; RTID 0648-XA837]

Coastal Migratory Pelagic Resources of the Gulf of Mexico and Atlantic Region; 2020-2021 Closure of Commercial Run-Around Gillnet for King Mackerel

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS implements an accountability measure (AM) through this temporary rule for commercial harvest of king mackerel in the southern zone of the Gulf of Mexico (Gulf) exclusive economic zone (EEZ) using run-around gillnet gear. NMFS has determined that the commercial annual catch limit (ACL) for king mackerel using run-around gillnet gear in the southern zone of the Gulf EEZ has been reached. Therefore, NMFS closes the southern zone to commercial king mackerel fishing using run-around gillnet gear in the Gulf EEZ on [insert date of filing for public inspection with the Office of the Federal Register]. This closure is necessary to protect the Gulf king mackerel resource.

DATES: The closure is effective from 12 p.m. local time on [insert date of filing for public inspection with the
Office of the Federal Register], until 6 a.m. local time on January 18, 2022.

FOR FURTHER INFORMATION CONTACT: Kelli O’Donnell, NMFS Southeast Regional Office, telephone: 727-824-5305, email: kelli.odonnell@noaa.gov.

SUPPLEMENTARY INFORMATION: The fishery for coastal migratory pelagic fish in the Gulf includes king mackerel, Spanish mackerel, and cobia, and is managed under the Fishery Management Plan for the Coastal Migratory Pelagic Resources of the Gulf of Mexico and Atlantic Region (FMP). The FMP was prepared by the Gulf of Mexico and South Atlantic Fishery Management Councils and is implemented by NMFS under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622. All weights for Gulf migratory group king mackerel (Gulf king mackerel) apply as either round or gutted weight.

The commercial fishery for Gulf king mackerel is divided into western, northern, and southern zones. The southern zone for Gulf king mackerel encompasses an area of the Gulf EEZ off Collier and Monroe Counties in south Florida, which is the EEZ south of a line extending due west from the boundary of Lee and Collier Counties on the Florida west coast, and south of a line extending due east from the boundary of Monroe and Miami-Dade Counties on the Florida east coast (50 CFR 622.369(a)(1)(iii)).
The commercial ACL for Gulf king mackerel is divided into separate ACLs for hook-and-line and run-around gillnet gear. The use of run-around gillnets for king mackerel is restricted to the Gulf southern zone. The commercial gillnet quota (equivalent to the commercial gillnet ACL) for Gulf king mackerel is 575,400 lb (260,997 kg) during the fishing year from July 1, 2020, through June 30, 2021 (50 CFR 622.384(b)(1)(iii)(B)).

Regulations at 50 CFR 622.388(a)(1) require NMFS to close any component of the king mackerel commercial sector when its applicable quota has been reached, or is projected to be reached, by filing a notification to that effect with the Office of the Federal Register. NMFS has determined that for the 2020-2021 fishing year, the commercial quota for Gulf king mackerel on vessels using run-around gillnet gear in the southern zone has been reached. Accordingly, commercial fishing using such gear in the southern zone is closed at 12 p.m. local time on [insert date of filing for public inspection with the Office of the Federal Register], until 6 a.m. local time on January 18, 2022, the beginning of the next fishing season, i.e., the day after the 2022 Martin Luther King, Jr. Federal holiday. Vessel operators that have been issued a Federal commercial permit to harvest Gulf king mackerel using run-around gillnet gear in the southern zone must have landed ashore and bartered, traded, or sold such king mackerel prior to 12 p.m. local
Persons aboard a vessel using hook-and-line gear in the southern zone for which a Federal commercial permit for Gulf king mackerel has been issued, except persons aboard such a vessel also issued a Federal commercial permit to harvest Gulf king mackerel using run-around gillnet gear, may fish for or retain Gulf king mackerel unless the southern zone commercial quota for hook-and-line gear has been met and the hook-and-line component of the commercial sector has been closed. In addition, as long as the recreational sector for Gulf king mackerel is open (50 CFR 622.384(e)(1)), a person aboard a vessel that has a valid Federal commercial gillnet permit for king mackerel may continue to retain king mackerel under the recreational bag and possession limits set forth in 50 CFR 622.382(a)(1)(ii) and (a)(2).

During the commercial closure, Gulf king mackerel harvested using run-around gillnet gear in the southern zone may not be purchased or sold. This prohibition does not apply to Gulf king mackerel harvested using run-around gillnet gear in the southern zone that were harvested, landed ashore, and sold prior to the closure and were held in cold storage by a dealer or processor (50 CFR 622.384(e)(2)).

Classification
NMFS issues this action pursuant to section 305(d) of the Magnuson-Stevens Act. This action is required by 50 CFR 622.388(a)(1), which was issued pursuant to section 304(b) of the Magnuson-Stevens Act, and is exempt from review under Executive Order 12866.

Pursuant to 5 U.S.C. 553(b)(B), there is good cause to waive prior notice and an opportunity for public comment on this action, as notice and comment is unnecessary and contrary to the public interest. Such procedures are unnecessary because the regulations associated with the commercial quota and associated AM for Gulf king mackerel have already been subject to notice and public comment, and all that remains is to notify the public of the closure. Prior notice and opportunity for public comment on this action is contrary to the public interest because of the need to immediately implement the closure to protect the Gulf king mackerel resource. The capacity of the fishing fleet allows for rapid harvest of the commercial quota, and any delay in the closure could result in the commercial quota being exceeded. Prior notice and opportunity for public comment would require time and would potentially result in a harvest that exceeds the commercial quota.

For the aforementioned reasons, there is good cause under 5 U.S.C. 553(d)(3) to waive the 30-day delay in effectiveness of this action.

**Authority:** 16 U.S.C. 1801 et seq.

Jennifer M. Wallace,
Acting Director, Office of Sustainable Fisheries,
National Marine Fisheries Service.
