Abstract: This is a congressionally-mandated evaluation of the scholarship component of the Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP) program. Established in the 1998 Higher Education Act (HEA), GEAR UP provides competitive, multi-year grants to states and local partnerships to prepare students attending high-poverty middle and high schools for college enrollment and success. State grantees must use at least half of their funds to provide college scholarships to GEAR UP students unless they receive a waiver from the U.S. Department of Education (ED).

How GEAR UP grantees provide scholarships to support students’ enrollment and persistence in college is of interest for several reasons. First, this component distinguishes GEAR UP from other federal college access programs that serve primarily low-income students or those from high need schools. Second, the 2008 HEA reauthorization gave state grantees flexibility in how they implement and fund the scholarships. While program statute requires states to set aside at least half of their GEAR UP funds to provide scholarships (states that do are referred to as “set-aside states”), states may be granted a waiver to devote all of their GEAR UP funds to other activities (referred to as “waiver states”) if they can ensure that GEAR UP students have access to alternative scholarship funds—such as those that are state-funded. The reauthorization also changed other aspects of the scholarship component, such as the minimum amount and which students must be eligible to receive this financial aid.

Little information is available about how states are carrying out these requirements or the challenges they face in administering this part of the GEAR UP program. The data collection for this study will examine the scholarship practices of all states that received a GEAR UP grant since fiscal year 2011, the first year the scholarship changes went into effect. ED plans to use the study results to inform program improvement, both current efforts and in the future through the upcoming reauthorization of the HEA.
