SUPPLEMENTARY INFORMATION:

**Agenda:** The meeting presentations will be heard, viewed, captioned, and recorded through an online teleconferencing platform. On March 23, 2021, the committee will discuss and make recommendations regarding the benefits and risks of dermal fillers concerning the following topics: (1) risks associated with intravascular injection of dermal fillers and (2) patient preference and informed decision making. FDA is convening this meeting to seek expert opinion on the clinical evaluation and regulation of dermal filler products.

FDA intends to make background material available to the public no later than 2 business days before the meeting. If FDA is unable to post the background material on its website prior to the meeting, the background material will be made publicly available on FDA’s website at the time of the advisory committee meeting, and the background material will be posted on FDA’s website after the meeting. Background material and the link to the online teleconference meeting room will be available at: https://www.fda.gov/advisory-committees/medical-devices-advisory-committee/general-and-plastic-surgery-devices-panel. Select the link for the 2021 Meeting Materials. The meeting will include slide presentations with audio components to allow the presentation of materials in a manner that most closely resembles an in-person advisory committee meeting.

**Procedure:** Interested persons may present data, information, or views, orally or in writing on issues pending before the committee. Written submissions may be made to the contact person on or before March 9, 2021. Oral presentations from the public and organizations will be scheduled on March 23, 2021, between approximately 12:40 p.m. Eastern Time to 1:40 p.m. Eastern Time. Those individuals interested in making formal oral presentations should
notify the contact person (see FOR FURTHER INFORMATION CONTACT). The notification should include a brief statement of the general nature of the evidence or arguments they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation on or before March 11, 2021. Time allotted for each presentation may be limited. If the number of registrants requesting to speak is greater than can be reasonably accommodated during the scheduled open public hearing session, FDA may conduct a lottery to determine the speakers for the scheduled open public hearing sessions. The contact person will notify interested persons regarding their request to speak by March 12, 2021.
