DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 71

[Docket No. FAA-2020-0943; Airspace Docket No. 20-AWP-11]

RIN 2120-AA66

Amendment of Class D and Class E airspace and Establishment of Class E airspace; Lancaster, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final Rule.

SUMMARY: This action modifies the Class E airspace, designated as an extension to a Class D or Class E surface area, at General WM J Fox Airfield Airport. Additionally, this action establishes Class E airspace, extending upward from 700 feet above the surface. Further, this action removes the Palmdale Production Flight/Test Instln Plant NR42, Palmdale VORTAC, and the Gen. William J. Fox NDB from the Class E4 legal description. Lastly, this action implements several administrative corrections to the Class D, Class E2 and Class E4 airspace text headers and legal descriptions.

DATES: Effective 0901 UTC, June 17, 2021. The Director of the Federal Register approves this incorporation by reference action under 1 CFR part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

ADDRESSES: FAA Order 7400.11E, Airspace Designations and Reporting Points, and subsequent amendments can be viewed online at https://www.faa.gov//air_traffic/publications/. For further information, you can contact the Airspace Policy Group, Federal Aviation Administration, 800 Independence Avenue SW, Washington, DC 20591; telephone: (202) 267-8783. The Order is also available for inspection at the National Archives and Records Administration (NARA). For
FOR FURTHER INFORMATION CONTACT: Matthew Van Der Wal, Federal Aviation Administration, Western Service Center, Operations Support Group, 2200 S. 216th Street, Des Moines, WA 98198; telephone (206) 231-3695.

SUPPLEMENTARY INFORMATION:

Authority for this Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies Class D and Class E airspace and establishes Class E airspace at General WM J Fox Airfield Airport, Lancaster, CA, to ensure the safety and management of Instrument Flight Rules (IFR) operations at the airport.

History

The FAA published a notice of proposed rulemaking in the Federal Register (85 FR 72613, November 13, 2020) for Docket No. FAA-2020-0943 to modify Class D and Class E airspace, and establish Class E airspace at General WM J Fox Airfield Airport, Lancaster, CA. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class D, E2, E4, and E5 airspace designations are published in paragraphs 5000, 6002, 6004, and 6005, respectively, of FAA Order 7400.11E, dated July 21, 2020, and
effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The
Class D and Class E airspace designation listed in this document will be published
subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11E, Airspace Designations and
Reporting Points, dated July 21, 2020, and effective September 15, 2020. FAA Order
7400.11E is publicly available as listed in the ADDRESSES section of this document.
FAA Order 7400.11E lists Class A, B, C, D, and E airspace areas, air traffic service
routes, and reporting points.

The Rule

This amendment to 14 CFR part 71 modifies the Class E airspace, designated as
an extension to a Class D or Class E surface area, at General WM J Fox Airfield Airport,
Lancaster, CA, to properly contain IFR aircraft descending below 1,000 feet above the
surface. This airspace area is described as follows: That airspace extending upward from
the surface within 1 mile each side of the 252º bearing from the airport, extending from
the 4-mile radius to 8.2 miles west of General WM J Fox Airfield Airport.

Also, this action establishes Class E airspace extending upward from 700 feet
above the surface for the airport. This airspace is designed to contain IFR departures to
1,200 feet above the surface, and IFR arrivals descending below 1,500 feet above the
surface. The airspace area is described as follows: That airspace extending upward from
700 feet above the surface within a 4-mile radius of the airport, and within 2 miles each
side of the 091º bearing from the airport, extending from the 4-mile radius to 9.4 miles
east of the airport, and within 2 miles each side of the 252º bearing from the airport,
extending from the 4-mile radius to 16.3 miles west of the airport, and within 3.8 miles
each side of the 311º bearing from the airport, extending from the 4-mile radius to 9.6
miles northwest of General WM J Fox Airfield Airport.
Additionally, this action removes the Palmdale Production Flight/Test Instln Plant NR42, the Palmdale VORTAC, and the Gen. William J. Fox NDB from the Class E4 legal description. The airport and the navigational aids are not needed to define the airspace. Removal of the airport and navigational aids allows the airspace to be defined from a single reference point which simplifies how the airspace is described.

Lastly, this action implements several administrative corrections to the airspaces’ text headers and legal descriptions. The geographic coordinates in the Class D legal description are updated to lat. 34°44'28"N, long. 118°13'07"W. This action removes the city name from the second line of the Class D, Class E2, and Class E4 text headers. This action updates the airport name from “Gen. William J. Fox Airfield” to “General WM J Fox Airfield Airport” in the second line of the Class D, Class E2, and Class E4 text headers. The last sentence in the Class D and Class E2 legal descriptions is updated to replace the term “Airport/Facilities Directory.” with the term “Chart Supplement.”

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

**Regulatory Notices and Analyses**

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5-6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

List of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71 - DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for 14 CFR part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020, is amended as follows:

Paragraph 5000. Class D Airspace

AWP CA D Lancaster, CA [Amended]
General WM J Fox Airfield Airport, CA
(lat. 34°44'28"N, long. 118°13'07"W)

That airspace extending upward from the surface to and including 4,800 feet MSL within a 4-mile radius of General WM J Fox Airfield Airport. This Class D airspace area is
Paragraph 6002. Class E Airspace Areas Designated as a Surface Area

AWP CA E2 Lancaster, CA [Amended]
General WM J Fox Airfield Airport, CA
(lat. 34°44'28"N, long. 118°13'07"W)

That airspace extending upward from the surface within a 4-mile radius of General WM J Fox Airfield Airport. This Class E airspace area is effective during the specific dates and times established, in advance, by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Chart Supplement.

Paragraph 6004. Class E Airspace Areas Designated as an Extension to a Class D or Class E Surface Area.

AWP CA E4 Lancaster, CA [Amended]
General WM J Fox Airfield Airport, CA
(lat. 34°44'28"N, long. 118°13'07"W)

That airspace extending upward from the surface within 1 mile each side of the 252º bearing from the airport, extending from the 4-mile radius to 8.2 miles west of General WM J Fox Airfield Airport.

Paragraph 6005. Class E Airspace Areas Extending Upward from 700 feet or more above the Surface of the Earth.

AWP CA E5 Lancaster, CA [New]
General WM J Fox Airfield Airport, CA
(lat. 34°44'28"N, long. 118°13'07"W)

That airspace extending upward from 700 feet above the surface within a 4-mile radius of the airport, and within 2 miles each side of the 091º bearing from the airport, extending from the 4-mile radius to 9.4 miles east of the airport, and within 2 miles each side of the 252º bearing from the airport, extending from the 4-mile radius to 16.3 miles west of the airport, and within 3.8 miles each side of the 311º bearing from the airport, extending from the 4-mile radius to 9.6 miles northwest of General WM J Fox Airfield Airport.

Issued in Seattle, Washington, on February 16, 2021.
