February 23, 2021.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),\(^1\) and Rule 19b-4 thereunder,\(^2\) notice is hereby given that on February 11, 2021, Cboe EDGX Exchange, Inc. (the "Exchange" or "EDGX") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. **Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change**

Cboe EDGX Exchange, Inc. (the "Exchange" or "EDGX") proposes to amend order start times during its Early Trading Session. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange’s website (http://markets.cboe.com/us/options/regulation/rule_filings/edgx/), at the Exchange’s Office of the Secretary, and at the Commission’s Public Reference Room.

II. **Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in

---

Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. **Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

1. **Purpose**

The Exchange proposes to amend Rule 11.1 to allow Users to designate their orders to become eligible for execution at 7:00 a.m. Eastern Time (“ET”) during the new Early Trading Session extended hours.

The Exchange currently offers four distinct trading sessions where the Exchange accepts orders for potential execution: (1) the “Early Trading Session,” which begins at 4:00 a.m. ET and continues until 8:00 a.m. ET, 3 (2) the “Pre-Opening Session,” which begins at 8:00 a.m. ET and continues until 9:30 a.m. ET, 4 (3) “Regular Trading Hours,” which begin at 9:30 a.m. ET and continue until 4:00 p.m. ET, 5 and (4) the “Post-Closing Trading Session,” which begins at 4:00 p.m. ET and continues until 8:00 p.m. ET. 6

The Exchange recently submitted an immediately effective rule filing which amended the Early Trading Session to extend its hours from a 7:00 a.m. ET start to a 4:00 a.m. ET start, and to allow Users to begin entering orders into the System prior to the Early Trading Session at 3:30 a.m. ET. 7 The Exchange intends to launch the new Early Trading Session extended hours on March 8,

---

3 “Early Trading Session” means the time between 4:00 a.m. and 8:00 a.m. ET. See Rule 1.5(ii).

4 “Pre-Opening Session” means the time between 8:00 a.m. and 9:30 a.m. ET. See Rule 1.5(s).

5 “Regular Trading Hours” means the time between 9:30 a.m. and 4:00 p.m. ET. See Rule 1.5(y).

6 “Post-Closing Trading Session” means the time between 4:00 p.m. and 8:00 p.m. ET. See Rule 1.5(r).

As amended, Rule 11.1 now provides that the Exchange will not accept the following orders prior to 4:00 a.m. ET: orders with a Post Only instruction, ISOs, Market Orders other than those with a TIF instruction of Regular Hours Only or a Stop Price, orders with a Minimum Execution Quantity instruction that also include a TIF instruction of Regular Hours Only, and all orders with a TIF instruction of IOC or FOK. Further, at the commencement of the Early Trading Session, orders entered between 3:30 a.m. and 4:00 a.m. ET will be handled in time sequence, beginning with the order with the oldest time stamp, and will be placed on the EDGX Book, routed, cancelled, or executed in accordance with the terms of the order.

In light of the planned extension of the Early Trading Session, the Exchange seeks to continue to provide Users with the option to submit orders that become eligible for execution during the Early Trading Session beginning at 7:00 a.m. ET. In particular, the proposed rule change amends Rule 11.1 to provide that at the commencement of the Early Trading Session, orders entered between 3:30 a.m. and 4:00 a.m. ET, will become eligible for execution (“4:00 a.m. Start”), unless designated as eligible for execution during the Early Trading Session beginning at 7:00 a.m. ET (“7:00 a.m. Start”). Orders with a 7:00 a.m. Start designation may be entered between 3:30 a.m. and 7:00 a.m. ET. At each Start time that orders may become eligible for execution in the Early Trading Session (4:00 a.m. or 7:00 a.m. ET), orders will be handled in time sequence, beginning with the order with the oldest time stamp, and will be placed on the EDGX Book, routed, cancelled, or executed in accordance with the terms of the order. The Exchange will not accept the following orders prior to 4:00 a.m. Eastern Time or prior to 7:00 a.m. Eastern Time for orders eligible for a 7:00 a.m. Start: orders with a Post Only instruction, ISOs, Market Orders other than those with a TIF instruction of Regular Hours Only or a Stop Price, orders with a Minimum Execution Quantity instruction that also include a TIF instruction of Regular Hours Only, and all orders with a TIF instruction of IOC or FOK.

The Exchange will announce the implementation of the extended Early Trading Session to Members in advance via Trade Desk Notice.

A User will be able to designate orders with a 7:00 a.m. Start through the use of a port setting. See also infra note 14.
The proposed rule change allows Users to continue to be able to choose to submit orders that become eligible for execution during the Early Trading Session beginning at 7:00 a.m. ET, as they may today in connection with the current Early Trading Session hours.\textsuperscript{10} As the Exchange’s Early Trading Session currently begins at 7:00 a.m. ET and other equities exchanges, including the Exchange’s affiliated equities exchanges,\textsuperscript{11} have early trading sessions that begin at 7:00 a.m. ET,\textsuperscript{12} the Exchange understands that many market participants have configured their systems for trading beginning at 7:00 a.m. ET and find 7:00 a.m. ET to be a time at which there are additional opportunities across the industry to access and source liquidity. For example, the Exchange understands that retail brokerage firms generally have standard agreements in place with their retail customers which provide that retail customer orders may not become eligible for execution until a specific time, and is aware of at least one such firm on the Exchange that has standard agreements in place with their retail customers that limit this time to 7:00 a.m. ET. The Exchange also understands that multiple liquidity providers wish to continue to participate in the Early Trading Session beginning at 7:00 a.m. given the particular liquidity and activity present across the U.S. equity markets at this specific time.\textsuperscript{13} Without a 7:00 a.m. Start designation available, certain retail investors may be limited in their ability to source liquidity that is available at this time during the Exchange’s Early Trading Session, and liquidity providers may similarly choose not to participate

\textsuperscript{10} The Exchange notes that the extended hours are intended to provide market participants with additional opportunities to source and access liquidity for their orders on the Exchange. See supra note 7.

\textsuperscript{11} The Exchange’s affiliated equities exchange are Cboe BZX Exchange, Inc. (“BZX”), Cboe BYX Exchange, Inc. (“BYX”), and Cboe EDGA Exchange, Inc. (“EDGA”).

\textsuperscript{12} See e.g., BZX Rule 1.5(ee), BYX Rule 1.5(ee), EDGA Rule 1.5(ii), NYSE Rule 7.34(a)(1), NYSE American Rule 7.34E, and Nasdaq BX Rule 4120(b)(4), each of which provide that their respective early trading sessions open at 7:00 a.m. ET.

\textsuperscript{13} See id.
in this trading session, thereby reducing liquidity available to other market participants and investors.\(^{14}\)

As such, the proposed rule change is intended to alleviate potential difficulty for Users that generally begin participating in the markets beginning at 7:00 a.m. ET, and to facilitate a fair and orderly market on the Exchange where retail investors and other market participants can benefit from trading opportunities present in the Exchange’s Early Trading Session. As such, the proposed 7:00 a.m. Start designation will provide Users with greater control over their orders and more flexibility to carry out their investment strategies and manage their needs based on market conditions. In turn, Users may continue to provide meaningful liquidity and benefit from trading opportunities present on the Exchange throughout the duration of the Early Trading Session.

The Exchange notes that, as proposed, orders eligible for execution beginning at 7:00 a.m. ET will function in the same manner as they currently do today upon the 7:00 a.m. ET commencement of the Early Trading Session (and as they will upon the 4:00 a.m. ET commencement for the extended Early Trading Session hours). That is, Users will submit orders eligible for a 7:00 a.m. ET Start during the Early Trading Session in the same manner as they may currently submit orders eligible for execution during the Early Trading Session, and will continue to be able to submit all such orders at the beginning of the early order acceptance period. As orders with a 7:00 a.m. Start designation will not be activated until 7:00 a.m., Users will have through 7:00 a.m. to submit such orders. The Exchange will continue not to accept the same order types listed in Rule 11.1 prior to the commencement of an order’s eligible start time in the Early Trading Session. The proposed rule change makes it clear that orders with a Post Only instruction, ISOs, Market Orders other than those with a TIF instruction of Regular Hours Only or a Stop Price, orders with a Minimum Execution Quantity instruction that also include a TIF instruction of Regular Hours Only, and all orders with a TIF instruction of IOC or FOK will continue to be rejected prior to an order’s

---

\(^{14}\) The Exchange is aware are at least one liquidity provider that has expressed that it will not participate in the Early Trading Session without a 7 a.m. Start feature.
eligible start time in the Early Trading Session, as they are today. Additionally, the System will continue to handle all orders eligible for execution during the Early Trading Session, including those with a 7:00 a.m. Start designation, pursuant to Rule 11.1. In particular, the proposed rule language makes it clear that all orders eligible for execution during the Early Trading Session will continue to be handled in time sequence, beginning with the order with the oldest time stamp, and will be placed on the EDGX Book, routed, cancelled, or executed in accordance with the terms of the order, beginning at the Start time (either 4:00 a.m. or 7:00 a.m. ET) at which they become eligible for execution in the Early Trading Session. At 7:00 a.m., orders with a 7:00 a.m. Start designation will simply be handled as any incoming order is handled during the Early Trading Session, and merge, in time sequence, onto the already active EDGX Order Book for the Early Trading Session. A User must continue to select the appropriate TIF to allow the order to execute in the Early Trading and a port setting will merely permit a User to designate an order that is already marked for the Early Trading Session to become active later in the Early Trading Session. The Exchange notes that the proposal does not extend or otherwise modify any trading hours during which trading is currently permissible on the Exchange but simply permits a User to activate an order at a specific time during an ongoing trading session.

Additionally, the Exchange notes that permitting Users to designate a 7:00 a.m. ET Start for which orders may become active during an early trading session that begins at 4:00 a.m. is consistent with the rules currently in place on Nasdaq Stock Market LLC (“Nasdaq”). Nasdaq’s early trading session currently begins at 4:00 a.m. and continues until the 9:30 a.m.

The System may delay the release of 7:00 a.m. Start orders if the System is experiencing an unusually significant amount of orders with a 7:00 a.m. Start designation that would potentially impact other System performance and processing functions during the Early Trading Session. The Exchange does not anticipate an occasion in which the System would have to implement a delayed release for orders with a 7:00 a.m. Start during the Early Trading Session. As the System does not have unlimited capacity, the proposed System flexibility to delay the release of orders with a 7:00 a.m. Start designation is a reasonable preventative measure to ensure that the System has the capacity to maintain fair and orderly markets in the event that there is an unusually significant amount of orders queued for 7:00 a.m. ET activation.
commencement of Nasdaq’s regular trading hours.\textsuperscript{16} Nasdaq Rule 4703(a) allows participants to
designate a time at which certain orders\textsuperscript{17} may become active and includes 7:00 a.m. ET as an
available time at which participants may activate such orders entered prior to 7:00 a.m. ET.\textsuperscript{18}

2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities
Exchange Act of 1934 (the “Act”) and the rules and regulations thereunder applicable to the
Exchange and, in particular, the requirements of Section 6(b) of the Act.\textsuperscript{19} Specifically, the
Exchange believes the proposed rule change is consistent with the Section 6(b)(5)\textsuperscript{20} requirements
that the rules of an exchange be designed to prevent fraudulent and manipulative acts and
practices, to promote just and equitable principles of trade, to foster cooperation and
coordination with persons engaged in regulating, clearing, settling, processing information with
respect to, and facilitating transactions in securities, to remove impediments to and perfect the
mechanism of a free and open market and a national market system, and, in general, to protect
investors and the public interest. Additionally, the Exchange believes the proposed rule change
is consistent with the Section 6(b)(5)\textsuperscript{21} requirement that the rules of an exchange not be designed
to permit unfair discrimination between customers, issuers, brokers, or dealers.

In particular, the proposed rule change to allow Users to submit orders that become
eligible for execution beginning at 7:00 a.m. ET, once the Exchange extends its Early Trading
Session hours to begin at 4:00 a.m. ET, will remove impediments to and perfect the mechanism
of a free and open market and national market system and will benefit investors by continuing to

\textsuperscript{16} See Nasdaq Rule 4701(g).
\textsuperscript{17} Orders using the SCAN or RTFY routing strategy available on Nasdaq.
\textsuperscript{18} The Exchange notes that the designation for orders to become active at 7:00 a.m. ET on
Nasdaq is similarly a port level setting. See Securities Exchange Act Release No. 83125
\textsuperscript{19} 15 U.S.C. 78f(b).
\textsuperscript{20} 15 U.S.C. 78f(b)(5).
\textsuperscript{21} Id.
provide Users with the option to activate their orders for execution beginning at 7:00 a.m. ET and thus the opportunity to continue to source and access liquidity at a specific time in which there are additional trading opportunities in the markets. The Exchange does not believe that the proposed rule change will present any unique or novel issues nor affect the maintenance of a fair and orderly market, as many market participants have configured their systems for trading beginning at 7:00 a.m. ET in line with the commencement of the early trading sessions on other equities exchanges, including the Exchange’s affiliated equities exchanges.\textsuperscript{22} Rather, the proposed rule change is designed to benefit investors, as well as overall liquidity in the Early Trading Session, by providing Users with the option to continue to activate their orders for execution during the Early Trading Session beginning at 7:00 a.m. ET when the Exchange extends its Early Trading Session hours. As described above, certain market participants, such as retail investors and liquidity providers, may be limited in their ability to source liquidity that is available in the Exchange’s Early Trading Session or choose not to participate in the Early Trading Session without the availability of a 7:00 a.m. Start designation, thereby reducing liquidity available to other market participants and investors. Thus, the proposed rule change will alleviate potential difficulties for Users that generally begin participating in in the markets at 7:00 a.m. ET (as these Users would not have to time the entry of their orders to occur as close to 7:00 a.m. ET as possible), and will facilitate a fair and orderly market on the Exchange by allowing retail investors and other market participants to benefit from trading opportunities present at this specific time during the Exchange’s Early Trading Session. Overall, the proposed rule change will serve to protect investors and the public interest by providing Users with greater control over their orders and more flexibility to carry out their investment strategies and manage their needs based on market conditions, thereby allowing them to continue to provide meaningful

\textsuperscript{22} See supra note 12.
liquidity and benefit from trading opportunities present on the Exchange throughout the duration of the Early Trading Session.

The proposed rule change will not affect the protection of investors as it would simply provide Users with the opportunity to choose whether orders entered for potential execution in the Early Trading Session will become active at the new 4:00 a.m. ET commencement of that trading session, or will instead continue to become active at 7:00 a.m. ET, as they do today. The System will continue to accept all orders eligible for execution during the Early Trading Session beginning at the early acceptance time, will continue to reject the same list of order types prior to the time an order is eligible to start trading in the Early Trading Session, and will continue to process all orders that are queued for participation in the Early Trading Session in time priority pursuant to Rule 11.1. That is, orders with a 7:00 a.m. Start designation will be handled as any incoming order is handled during the Early Trading Session, and merge, in time sequence, onto the already active EDGX Order Book for the Early Trading Session. As described above, a User must continue to select the appropriate TIF to allow the order to execute in the Early Trading Session and a port setting step will just permit an order already marked for execution in the Early Trading Session to become active later in the Early Trading Session. The proposed rule change does not extend or otherwise modify any trading hours during which trading is currently permissible on the Exchange but simply permits Users to choose to activate their orders at a specific time during an ongoing trading session.

The Exchange also notes that, as with any order eligible for trading in the Early Trading Session, market participants must monitor market conditions to ensure compliance with best execution obligations for their orders with a 7:00 a.m. Start designation and will be able to cancel

---

23 See also supra note 15.

24 A member’s best execution obligation may also include cancelling an order when market conditions deteriorate and could result in an inferior execution or informing customers where the execution of their order may be delayed intentionally as the member utilizes reasonable diligence to ascertain the best market for the security. See FINRA Rule 5130.
or modify their orders with a 7:00 a.m. Start time designation at any time prior to their activation, thus allowing them to react to market conditions that may cause them to violate their best execution obligations. FINRA Rule 5310(a)(1) provides that a member must use reasonable diligence to ascertain the best market for a security and buy or sell in such market so that the resultant price to the customer is as favorable as possible under prevailing market conditions. FINRA Rule 5310(a)(1)(A) states that one of the factors that will be considered in determining whether a member has used “reasonable diligence” is “the character of the market for the security (e.g., price, volatility, relative liquidity, and pressure on available communication).” The Exchange believes that Users are accustomed to this additional analysis and will continue to apply such in determining whether to designate an activation at 7:00 a.m. ET. The regulatory guidance with respect to best execution anticipates the continued evolution of execution venues:

[B]est execution is a facts and circumstances determination. A broker-dealer must consider several factors affecting the quality of execution, including, for example, the opportunity for price improvement, the likelihood of execution…, the speed of execution and the trading characteristics of the security, together with other non-price factors such as reliability and service.

To the extent there may be best execution obligations at issue, they are no different than the best execution obligations faced by brokers in the current market structure, including the current use of orders that become eligible for execution at the start of the Early Trading Session, Pre-Opening Session or Regular Trading Hours, depending on the TIF selected by the User. A User may use continue to use TIF instructions to forgo a possible execution at the start of one trading session, or at a 7 a.m. Start time, as proposed, if they believe doing so is consistent with their best execution obligations as they anticipate that the market for the security may improve upon the start of another

These characteristics are reflected in the disclosure requirements mandated by Exchange Rule 3.21 before a Member may accept an order from a customer for execution in the Pre-Opening, Post-Closing, and proposed Early Trading Sessions.

trading session, or at 7:00 a.m. ET, as proposed. Applicable best execution guidance contains no
formulaic mandate as to whether or how brokers should direct orders. The optionality created by the
proposed rule change simply represents one tool available to User to meet their best execution
obligations.

The Exchange also notes that Users are required to implement regulatory risk management
controls and procedures that are reasonably designed to prevent the entry of orders that fail to
comply with regulatory requirements that apply on a pre-order entry basis pursuant to the Market
Access Rule under 15c3-5 of the Act. These pre-trade controls must, for example, be reasonably
designed to assure compliance with Exchange trading rules and Commission rules under Regulation
SHO and Regulation NMS. In accordance with the Market Access Rule, a User’s procedures
must be reasonably designed to ensure compliance with their applicable regulatory requirements,
not just at the time the order is routed to the Exchange, but also at the time the order becomes
eligible for execution.

In addition to this, the proposed rule change will not affect the protection of investors as
it is generally consistent with Nasdaq Rule 4703(a), as previously approved by the
Commission, which allows participants to designate 7:00 a.m. ET as a time in which certain
orders entered prior to 7:00 a.m. ET may become active during Nasdaq’s early trading session,
which likewise commences at 4:00 a.m. ET. Unlike Nasdaq Rule 4703(a), which limits the types
of orders that may be designated to begin at 7:00 a.m. ET, the proposal will provide Users with
the control and flexibility to designate a 7 a.m. Start time for any of their same orders currently
eligible to execute in the Early Trading Session, thereby providing the opportunity for all orders

(November 15, 2010) (File no. S7-03-10).

28 See e.g., Question 2.6 of the Division of Trading and Markets: Response to Frequently
Asked Questions Concerning Regulations SHO, available at

29 17 CFR 240.610 - 611.

30 See supra note 16.
eligible for the Early Trading Session to access the additional liquidity and execution opportunities present in the markets at this particular time, as they may today

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Particularly, the Exchange does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because all Users will be able to designate their orders to become eligible for execution during the Early Trading Session beginning at 7:00 a.m. ET. All Users’ orders submitted with a 7:00 a.m. Start designation will become eligible for execution at 7:00 a.m. ET in the same time sequence as they are today and will be subject to the same order type restrictions as are currently in place. The Exchange also does not believe that the proposed rule change will impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act, and may promote competition, because the proposed activation time is substantially similar to that which is currently in place on Nasdaq, as previously approved by the Commission, and other equities exchanges currently begin their early trading sessions at 7:00 a.m. ET. Therefore, the proposal will also allow the Exchange to compete with those exchanges that allow for a 7:00 a.m. ET start time.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act and Rule 19b-4(f)(6) thereunder. Because the proposed rule change does not:

(i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6) thereunder.

A proposed rule change filed under Rule 19b-4(f)(6) normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b-4(f)(6)(iii), the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposed rule change may become operative immediately. This will allow the Exchange to implement the proposal at the same time as the Exchange’s new extended Early Trading Session hours, which the Exchange plans to launch on March 8, 2021. In seeking this waiver, the Exchange asserts that this proposal neither introduces any new or novel issues nor extends or otherwise modifies trading hours during which trading is currently permissible on the Exchange. Rather, the Exchange states that this proposal will allow market participants and investors to continue to submit orders that become eligible for execution at 7:00 a.m. ET, as they already do today, once the Exchange extends its Early Trading Session hours to begin at 4:00 a.m. ET. Based on the foregoing, the Commission believes that allowing this proposed rule change to become operative upon filing is consistent with the protection of

34 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires the Exchange to give the Commission written notice of the Exchange’s intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.
investors and the public interest. The Commission hereby waives the 30-day operative delay and designates the proposal operative upon filing.\textsuperscript{37}

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission’s Internet comment form (http://www.sec.gov/rules/sro.shtml); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-CboeEDGX-2021-010 on the subject line.

Paper comments:

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-CboeEDGX-2021-010. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission’s Internet website (http://www.sec.gov/rules/sro.shtml).

\textsuperscript{37} For purposes only of waiving the 30-day operative delay, the Commission has considered the proposed rule’s impact on efficiency, competition, and capital formation. See 15 U.S.C. 78c(f).
Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission’s Public Reference Room, 100 F Street, NE, Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal offices of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-CboeEDGX-2021-010, and should be submitted on or before [insert date 21 days from publication in the Federal Register].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.\(^{38}\)

J. Matthew DeLesDernier,

Assistant Secretary.
