provisions, the TRACED Act also directs the Commission to create extension and exemption
mechanisms for voice service providers. On September 29, 2020, the Commission adopted its
Call Authentication Trust Anchor Second Report and Order. See Call Authentication Trust

The Second Report and Order implemented section 4(b)(1)(B) of the TRACED Act, in part, by requiring a voice service provider maintain and be ready to provide the Commission upon request with documented proof that it is participating, either on its own or through a representative, including third party representatives, as a member of a working group, industry standards group, or consortium that is working to develop a non-Internet Protocol caller identification authentication solution, or actively testing such a solution. The Second Report and Order also implemented the extension mechanisms in section 4(b)(5) by, in part, requiring voice service providers to certify that they have either implemented STIR/SHAKEN or a robocall mitigation program. And finally, the Second Report and Order completed the implementation of the exemption process of 4(b)(2) by requiring voice service providers file a second certification after June 30, 2021 to verify that they met the criteria to receive their exemption.
