**SUPPLEMENTARY INFORMATION:**

**I. Notice of Final Decision**

OSHA hereby gives notice that it is granting the renewal of recognition of SGS North America, Inc. (SGS) as a NRTL under 29 CFR 1910.7.

OSHA recognition of a NRTL signifies that the organization meets the requirements in Section 1910.7 of Title 29, Code of Federal Regulations (29 CFR 1910.7).

Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification. OSHA maintains an informational webpage for each NRTL that details the scope of recognition available at <http://www.osha.gov/dts/otpca/nrtl/index.html>.

OSHA processes applications submitted by an NRTL for renewal of recognition following requirements in Appendix A to 29 CFR 1910.7. OSHA conducts renewals in accordance with the procedures in 29 CFR 1910.7, App. A II.C. In accordance with these procedures, NRTLs submit a renewal request to OSHA between nine months and one year before the expiration date of the current recognition. A renewal request includes a request for renewal and any additional information demonstrating their continued compliance with the terms of the recognition and 29 CFR 1910.7. If OSHA has not conducted an on-site assessment of the NRTL headquarters and any key sites within the past 18 to 24 months, it will schedule the necessary on-site assessment prior to the expiration date of the NRTL's recognition. Upon review of the submitted material and, as necessary, the successful completion of the on-site assessment, OSHA announces the preliminary decision to grant or deny renewal in the *Federal Register* and solicits comments from the public. OSHA then publishes a final *Federal Register* notice responding to any comments and renewing the NRTL's recognition for a period of five years, or denying the renewal of recognition.

SGS initially received OSHA recognition as a NRTL on March 23, 1993 (58 FR 15509). SGS's most recent renewal was on July 14, 2014, for a five-year period ending

on July 14, 2019. SGS submitted a timely request for renewal, dated October 2, 2018 (OSHA-2006-0040-0050), and retains their recognition pending OSHA's final decision in this renewal process. The current addresses of the SGS facilities recognized by OSHA and included as part of the renewal request are:

- 1) SGS North America, Inc., 620 Old Peachtree Road, Suwanee, Georgia 30024;
- 2) Consumer Testing Services, SGS Tecnos S.A., C/. Trespaderne 29, Edificio Barajas 1, 28042 Madrid, Spain;

## **II. Final Decision and Order**

OSHA hereby gives notice of the renewal of recognition of SGS as a NRTL. OSHA examined SGS renewal application and all pertinent information related to SGS's request for renewal of NRTL recognition. Based on this review of the renewal request and other pertinent information, OSHA finds that SGS meets the requirements of 29 CFR 1910.7 for renewal of recognition as a NRTL, subject to the specified limitation and conditions. OSHA limits the renewal of SGS's recognition to include the terms and conditions of SGS's recognition found in 58 FR 15509. The NRTL scope of recognition for SGS is also available on the OSHA website at: <https://www.osha.gov/dts/otpca/nrtl/sgs.html>. This renewal extends SGS's recognition as a NRTL for a period of five years from [INSERT DATE OF PUBLICATION IN THE FEDERAL REGISTER].

### **A. Conditions**

In addition to those conditions already required by 29 CFR 1910.7, SGS must abide by the following conditions of recognition:

1. SGS must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in their operations as a NRTL, and provide details of the change(s);

2. SGS must meet all the terms of their recognition and comply with all OSHA policies pertaining to this recognition; and
3. SGS must continue to meet the requirements for recognition, including all previously published conditions on SGS's scope of recognition, in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby renews the recognition of SGS as a NRTL.
