SUPPLEMENTARY INFORMATION:

I. Notice of Final Decision

OSHA hereby gives notice that it is granting the renewal of recognition of FM Approvals LLC (FM) as a NRTL under 29 CFR 1910.7.

OSHA recognition of a NRTL signifies that the organization meets the requirements in Section 1910.7 of Title 29, Code of Federal Regulations (29 CFR 1910.7).

Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within the scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification. OSHA maintains an informational webpage for each NRTL that details the scope of recognition available at

<http://www.osha.gov/dts/otpca/nrtl/index.html>.

OSHA processes applications submitted by a NRTL for renewal of recognition following requirements in Appendix A to 29 CFR 1910.7. OSHA conducts renewals in accordance with the procedures in 29 CFR 1910.7, App. A II.C. In accordance with these procedures, NRTLs submit a renewal request to OSHA between nine months and one year before the expiration date of the current recognition. A renewal request includes a request for renewal and any additional information demonstrating their continued compliance with the terms of the recognition and 29 CFR 1910.7. If OSHA has not conducted an on-site assessment of the NRTL headquarters and any key sites within the past 18 to 24 months, it will schedule the necessary on-site assessment prior to the expiration date of the NRTL's recognition. Upon review of the submitted material and, as necessary, the successful completion of the on-site assessment, OSHA announces the preliminary decision to grant or deny renewal in the *Federal Register* and solicits comments from the public. OSHA then publishes a final *Federal Register* notice

responding to any comments and renewing the NRTL's recognition for a period of five years, or denying the renewal of recognition.

FM initially received OSHA recognition as a NRTL on June 13, 1988, and referenced in a *Federal Register* notice dated March 29, 1995 (60 FR 16167). FM's most recent renewal was granted on July 14, 2014, for a five-year period expiring on July 14, 2019. FM submitted a timely request for renewal, dated August 3, 2018 (OSHA-2007-0041-0012), and retains their recognition pending OSHA's final decision in this renewal process. The current addresses of FM facilities recognized by OSHA and included as part of the renewal request are:

1. FM Norwood, 1151 Boston-Providence Turnpike, Norwood, Massachusetts 02062; and
2. FM West Gloucester, 743 Reynolds Road, West Gloucester, Rhode Island 02814.

OSHA evaluated FM's application for renewal and made a preliminary determination that FM can continue to meet the requirements prescribed by 29 CFR 1910.7 for recognition.

OSHA published the preliminary notice announcing FM's renewal application in the *Federal Register* on July 13, 2020 (85 FR 42027). The agency requested comments by July 28, 2020, and received no comments in response to this notice. OSHA is now proceeding with this final notice to renew FM's NRTL recognition.

To obtain or review copies of all public documents pertaining to the FM's application, go to www.regulations.gov or contact the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue, NW, Room N-3655, Washington, DC 20210; telephone (202) 693-2350. Docket No. OSHA-2007-0041 contains all materials in the record concerning FM's NRTL recognition.

Please note: Due to the COVID-19 pandemic, the Docket Office is closed to the public at this time but can be contacted at (202) 693-2350.

II. Final Decision and Order

OSHA hereby gives notice of the renewal of recognition of FM as a NRTL. OSHA examined FM's renewal application and all pertinent information related to FM's request for renewal of NRTL recognition. Based on this review of the renewal request and other pertinent information, OSHA finds that FM meets the requirements of 29 CFR 1910.7 for renewal of recognition as a NRTL, subject to the specified limitation and conditions. OSHA limits the renewal of FM's recognition to include the terms and conditions of FM's recognition found in 60 FR 16167. The NRTL scope of recognition for FM is also available on the OSHA website at: <https://www.osha.gov/dts/otpca/nrtl/fm.html>. This renewal extends FM's recognition as a NRTL for a period of five years from **[INSERT DATE OF PUBLICATION IN THE FEDERAL REGISTER]**.

A. Conditions

In addition to those conditions already required by 29 CFR 1910.7, FM must abide by the following conditions of recognition:

1. FM must inform OSHA as soon as possible, in writing, of any change of ownership, facilities, or key personnel, and of any major change in their operations as a NRTL, and provide details of the change(s);
2. FM must meet all the terms of their recognition and comply with all OSHA policies pertaining to this recognition; and
3. FM must continue to meet the requirements for recognition, including all previously published conditions on FM's scope of recognition, in all areas for which it has recognition.

Pursuant to the authority in 29 CFR 1910.7, OSHA hereby renews the recognition of FM as a NRTL.
