Federal Energy Regulatory Commission

[Docket Nos. CP15-554-009; CP15-555-007]

Atlantic Coast Pipeline, LLC, Eastern Gas Transmission and Storage, Inc.; Notice of Amendment of Certificates and Opening of Scoping Period

Take notice that on January 4, 2021, Atlantic Coast Pipeline, LLC (ACP), 120 Tredegar Street, Richmond, VA 23219, filed its Atlantic Coast Project Disposition and Restoration Plan, and on November 20, 2020, Eastern Gas Transmission and Storage, Inc. (EGTS),¹ 6603 West Broad Street, Richmond, Virginia 23230, filed the Supply Header Project Restoration Plan.² On July 5, 2020, Dominion Energy Transmission, Inc. and Duke Energy issued a press release announcing the cancellation of the Atlantic Coast Project, which the Commission authorized on October 13, 2017.³ The Restoration Plans describe ACP's and EGTS's plans for the disposition of Atlantic Coast and Supply Header Projects, including proposed restoration activities which would modify their original authorizations to such an extent that it is appropriate to treat the plans as amendments to the certificates of public convenience and necessity issued for the projects. The two plans are on file with the Commission and open for public inspection.

In addition to publishing the full text of this document in the Federal Register, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://ferc.gov>) using the "eLibrary" link. ¹ On November 1, 2020, Dominion Energy sold certain companies including Dominion Energy Transmission, Inc., the Supply Header Project developer, to Berkshire Hathaway Energy Company and Dominion Energy Transmission, Inc. changed its name to Eastern Gas Transmission and Storage, Inc.

² Both plans were submitted in response to Commission staff's October 27, 2020 Data Request.

ACP and EGTS are directed to provide this notice to all affected landowners and towns, communities, and local, state and federal governments and agencies involved in the project within 10 business days of its publication in the Federal Register.

This notice also announces the opening of a scoping period the Commission will use to gather input from the public and interested agencies regarding the proposed restoration activities associated with the disposition of the Atlantic Coast and Supply Header Projects. By this notice, the Commission requests public comments on the scope of issues to address in the environmental document.

Pursuant to Section 157.9 of the Commission's Rules of Practice and Procedure,⁴ within 90 days of this Notice the Commission staff will either: complete its environmental review and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or environmental assessment (EA) for this proposal. The filing of an EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

PUBLIC PARTICIPATION

There are two ways to become involved in the Commission's review of the companies' proposals: you can file comments on the proposals, and you can file a motion to intervene in the proceeding. There is no fee or cost for filing comments or intervening. The deadline for filing a motion to intervene is 5:00 p.m. Eastern Time on **April 16, 2021**.

Any person wishing to comment on the proposals may do so. Comments may include statements of support or objections to the proposals as a whole or specific aspects of the proposal. Interventions

All intervenors in the previous proceedings for the projects (CP15-554-000; CP15-554-001; CP15-555-000) will be considered intervenors in this amendment proceeding and do not need to file a new motion to intervene.

Any other person, which includes individuals, organizations, businesses, municipalities, and other entities,⁵ has the option to file a motion to intervene in this proceeding. Only intervenors have the right to request rehearing of Commission orders issued in this proceeding and to subsequently challenge the Commission's orders in the U.S. Circuit Courts of Appeal.

To intervene, you must submit a motion to intervene to the Commission in accordance with Rule 214 of the Commission's Rules of Practice and Procedure⁶ and the regulations under the NGA⁷ by the intervention deadline for the project, which is **April 16, 2021**. As described further in Rule 214, your motion to intervene must state, to the extent known, your position regarding the proceeding, as well as your interest in the proceeding. [For an individual, this could include your status as a landowner, ratepayer, resident of an impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene.] For more information about motions to intervene, refer to the FERC website at <https://www.ferc.gov/resources/guides/how-to/intervene.asp>.
