NRC-2020-0110]

### Issuance of Multiple Exemptions in Response to COVID-19 Public Health Emergency

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Exemptions; issuance.

**SUMMARY:** The U.S. Nuclear Regulatory Commission (NRC) issued four exemptions in response to requests from two licensees. The exemptions afford these licensees temporary relief from certain requirements under NRC regulations. The exemptions are in response to the licensees' requests for relief due to the coronavirus disease 2019 (COVID-19) public health emergency (PHE). The NRC is issuing a single notice to announce the issuance of the exemptions.

**DATES:** During the period from February 2, 2021, to February 23, 2021, the NRC granted four exemptions in response to requests submitted by two licensees from January 21, 2021, to February 8, 2021.

**ADDRESSES:** Please refer to Docket ID **NRC-2020-0110** when contacting the NRC about the availability of information regarding this document. You may obtain publicly available information related to this document using any of the following methods:

**SUPPLEMENTARY INFORMATION:**

**I. Introduction**

During the period from February 2, 2021, to February 23, 2021, the NRC granted four exemptions in response to requests submitted by two licensees from January 21, 2021, to February 8, 2021. These exemptions temporarily allow the licensees to deviate from certain requirements of part 26, “Fitness for Duty Programs,” of chapter I of title 10 of the *Code of Federal Regulations* (10 CFR).

The exemptions from certain requirements of 10 CFR part 26, “Fitness for Duty Programs,” for Exelon Generation Company, LLC (for Calvert Cliffs Nuclear Power Plant, Units 1 and 2; LaSalle County Station, Units 1 and 2; and Nine Mile Point Nuclear Station, Units 1 and 2) and for Vistra Operations Company LLC (for Comanche Peak Nuclear Power Plant, Unit Nos. 1 and 2) afford these licensees temporary relief from the work-hour controls under 10 CFR 26.205(d)(1) through (d)(7). The exemptions from 10 CFR 26.205(d)(1) through (d)(7) ensure that the control of work hours and management of worker fatigue does not unduly limit licensee flexibility in using

personnel resources to most effectively manage the impacts of the COVID-19 PHE on maintaining the safe operation of these facilities. Specifically, these licensees have stated that their staffing levels are affected or are expected to be affected by the COVID-19 PHE, and they can no longer meet or likely will not meet the work-hour controls of 10 CFR 26.205(d)(1) through (d)(7). These licensees have committed to effecting site-specific COVID-19 PHE fatigue-management controls for personnel specified in 10 CFR 26.4(a).

The NRC is providing compiled tables of exemptions using a single *Federal Register* notice for COVID-19 related exemptions instead of issuing individual *Federal Register* notices for each exemption. The compiled tables in this notice provide transparency regarding the number and type of exemptions the NRC has issued. Additionally, the NRC publishes tables of approved regulatory actions related to the COVID-19 PHE on its public Web site at <https://www.nrc.gov/about-nrc/covid-19/reactors/licensing-actions.html>.

## II. Availability of Documents

The tables in this notice provide the facility name, docket number, document description, and ADAMS accession number for each exemption issued. Additional details on each exemption issued, including the exemption request submitted by the respective licensee and the NRC's decision, are provided in each exemption approval listed in the tables in this notice. For additional directions on accessing information in ADAMS, see the **ADDRESSES** section of this document.
