Needs and Uses: The collection of information is necessary for DoD to immediately begin assessing where vulnerabilities in its supply chain exist and take steps to correct such deficiencies. In addition, the collection of information is necessary to ensure Defense Industrial Base (DIB) contractors that have not fully implemented the NIST SP 800-171 security requirements pursuant to DFARS clause 252.204-7012, Safeguarding Covered Defense Information and Cyber Incident Reporting, begin correcting these deficiencies immediately.

This collection of information is implemented in the DFARS through the provision at 252.204-7019, Notice of NIST SP 800-171 DoD Assessment Requirement, and the clause at 252.204-7020, NIST SP 800-171 DoD Assessment Requirements. This information collection covers the following requirements:

- DFARS provision 252.204-7019, Notice of NIST SP 800-171 DoD Assessment Requirement, is prescribed for use in all solicitations, including solicitations using FAR part 12 procedures for the acquisition of commercial items, except for solicitations solely for the acquisition of commercially available off-the-shelf (COTS) items. Per the provision, if an offeror is required to have implemented NIST SP 800-171 per DFARS clause 252.204-7012, then the offeror shall have a current assessment posted in the
Supplier Performance Risk System (SPRS) for each covered contractor information system that is relevant to the offer, contract, task order, or delivery order in order to be considered for award. If the offeror does not have summary level scores of a current NIST SP 800–171 DoD Assessment (i.e., not more than 3 years old, unless a lesser time is specified in the solicitation) posted in SPRS, the offeror may conduct and submit a Basic Assessment for posting in SPRS.

- DFARS clause 252.204–7020, NIST SP 800–171 DoD Assessment Requirements, is prescribed for use in all solicitations and contracts, including solicitations and contracts using FAR part 12 procedures for the acquisition of commercial items, except for solicitations and contracts solely for the acquisition of COTS items. The clause requires the contractor to provide the Government access to its facilities, systems, and personnel in order to conduct a Medium or High Assessment, if necessary. For Basic Assessments, the contractor may submit summary level scores for posting to SPRS. Medium Assessments are assumed to be conducted by DoD Components, primarily by Program Management Office cybersecurity personnel, in coordination with the Defense Contract Management Agency (DCMA) Defense Industrial Base Cybersecurity Assessment Center (DIBCAC), as part of a separately scheduled visit (e.g., for a Critical Design Review). High Assessments will be
conducted by, or in conjunction with, the DCMA DIBCAC. The Department may choose to conduct a Medium or High Assessment when warranted based on the criticality of the program(s)/technology(ies) associated with the contracted effort(s). For example, a Medium Assessment may be initiated by a Program Office that has determined that the risk associated with their programs warrants going beyond the Basic self-assessment. The results of that Medium Assessment may satisfy the Program Office, or may indicate the need for a High assessment. DoD will provide Medium and High Assessment summary level scores to the contractor and offer the opportunity for rebuttal and adjudication of assessment summary level scores prior to posting the summary level scores to SPRS. The requirements of this clause flow down to subcontractors.
