DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA-2021-0066]

Agency Information Collection Activities; Renewal of an Approved Information Collection: Medical Qualification Requirements

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), Department of Transportation (DOT).

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FMCSA announces its plan to submit the Information Collection Request (ICR) described below to the Office of Management and Budget (OMB) for its review and approval, and invites public comment. FMCSA requests approval to renew an ICR, titled “Medical Qualification Requirements,” and provides updated information for several of the information collections discussed. This ICR is needed to ensure that drivers, motor carriers, Medical Examiners (ME), and the States are complying with the physical qualification requirements of commercial motor vehicle (CMV) drivers. The information collected is used primarily to determine and certify driver medical fitness and must be collected in order for our highways to be safe.

DATES: We must receive your comments on or before [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

ADDRESSES: You may submit comments identified by Federal Docket Management System (FDMS) Docket Number FMCSA-2021-0066 using any of the following methods:

- Federal eRulemaking Portal: https://www.regulations.gov. Follow the online instructions for submitting comments.
Fax: 1-202-493-2251.

Mail: Dockets Operations, U.S. Department of Transportation, 1200 New Jersey Avenue SE, West Building, Ground Floor, Room W12-140, Washington, DC 20590-0001.

Hand Delivery or Courier: U.S. Department of Transportation, 1200 New Jersey Avenue SE, West Building, Ground Floor, Room W12-140, Washington, DC, 20590-0001 between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal holidays.

Instructions: All submissions must include the Agency name and docket number. For detailed instructions on submitting comments, see the Public Participation heading below. Note that all comments received will be posted without change to https://www.regulations.gov, including any personal information provided. Please see the Privacy Act heading below.

Docket: For access to the docket to read background documents or comments received, go to https://www.regulations.gov, and follow the online instructions for accessing the docket, or go to the street address listed above.

Privacy Act: DOT posts all comments, without edit, including any personal information the commenter provides, to https://www.regulations.gov, as described in the system of records notice DOT/ALL 14–FDMS, which can be reviewed at https://www.transportation.gov/privacy.

Public Participation: The Federal eRulemaking Portal is available 24 hours each day, 365 days each year. You can obtain electronic submission and retrieval help and guidelines under the “help” section of the Federal eRulemaking Portal website. If you want us to notify you that we received your comments, please include a self-addressed, stamped envelope or postcard if you submitted your comments by mail or hand delivery, or print the acknowledgement page that appears after submitting comments online.
Comments received after the comment closing date will be included in the docket and will be considered to the extent practicable.

FOR FURTHER INFORMATION CONTACT: Ms. Christine A. Hydock, Chief, Medical Programs Division, (202) 366-4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue SE, Room W64-224, Washington, DC 20590-0001. Office hours are 8:30 a.m. to 5 p.m., ET, Monday through Friday, except Federal holidays. If you have questions regarding viewing or submitting material to the docket, contact Dockets Operations, telephone (202) 366-9826.

SUPPLEMENTARY INFORMATION:

Background: CMVs (trucks and buses) are longer, heavier, and more difficult to maneuver than automobiles, making them a threat to highway safety if not operated properly by qualified individuals. The public interest in, and right to have, safe highways requires the assurance that drivers of CMVs can safely perform the increased physical and mental demands of their duties. FMCSA’s physical qualification standards provide this assurance by requiring drivers to be examined and medically certified as physically and mentally qualified to drive. Therefore, information used to determine and certify driver medical fitness must be collected. FMCSA is the Federal government agency authorized to require the collection of this information. FMCSA is required by statute to establish standards for the physical qualifications of drivers who operate CMVs in interstate commerce for non-excepted industries (49 U.S.C. 31136(a)(3) and 31502(b)). The physical qualification regulations relating to this information collection are found in the Federal Motor Carrier Safety Regulations (FMCSR) at 49 CFR parts 390-399.

Below is a brief description of the included information collection activities and how the information is used.

Physical Qualification Standards
The FMCSRs at 49 CFR 391.41 set forth the physical qualification standards interstate CMV drivers who are subject to part 391 must meet, with the exception of commercial driver’s license/commercial learner’s permit (CDL/CLP) drivers transporting migrant workers (who must meet the physical qualification standards set forth in 49 CFR 398.3). The FMCSRs covering driver physical qualification records applicable to all drivers subject to part 391 are found at 49 CFR 391.43, which specifies that a physical qualification examination be performed on CMV drivers subject to part 391 who operate in interstate commerce. The results of examinations must be recorded on the Medical Examination Report (MER) Form, MCSA-5875. If the ME finds a driver is physically qualified to operate a CMV in accordance with 49 CFR 391.41, the ME must complete and furnish to the driver a Medical Examiner’s Certificate (MEC), Form MCSA-5876.

The provisions of 49 CFR 391.51 require that a motor carrier retain the MEC or, for CDL drivers, the Commercial Driver’s License Information System (CDLIS) motor vehicle record, if it contains medical certification status, in the driver’s qualification (DQ) file for 3 years. The MEC and CDLIS motor vehicle record affirm that the driver is physically qualified to operate a CMV in interstate commerce. With respect to drivers transporting migrant workers, 49 CFR 398.3 requires a motor carrier to retain in its files a copy of a doctor’s certificate that affirms the driver has been examined in accordance with that section and determined to be physically qualified to operate a CMV.

Due to the potential for the onset of new conditions or changes in existing conditions that may adversely affect a driver’s ability to safely operate a CMV and/or cause incapacitation that could be a risk to public safety, FMCSA requires drivers to be medically certified at least every 2 years. However, drivers with certain medical conditions must be certified more frequently than every 2 years. MEs have discretion to certify for shorter time periods on a case-by-case basis for medical conditions that require closer monitoring or that are more likely to change over time.
MEs are required to maintain records of the CMV driver physical qualification examinations they conduct. FMCSA does not require MEs to maintain these records electronically. However, there is nothing to preclude an ME from maintaining electronic records of the medical examinations he or she conducts. FMCSA is continuously evaluating new information technology in an attempt to decrease the burden on motor carriers and MEs.

Less frequent collection of driver data, MER Forms, and MECs would compromise FMCSA’s ability to determine ME compliance with FMCSA’s requirements for performing CMV driver physical qualification examinations. This could result in MEs being listed on FMSCA’s National Registry of Certified Medical Examiners (National Registry) who should be removed and possibly drivers who do not meet the physical qualification standards possessing an MEC. Less frequent data collection would also result in decreased validity of the data (i.e., less frequent data submission may increase the error rate due to unintentional omission of examination information). Therefore, less frequent collection of driver examination results is not an option.

**Resolution of Medical Conflict**

If two MEs disagree about the medical certification of a driver, the medical conflict provision provides a mechanism for drivers and motor carriers to request that FMCSA resolve the conflicting medical evaluations when either party does not accept the decision of a medical specialist. The requirements set forth in 49 CFR 391.47 mandate that the applicant (driver or motor carrier) submit a copy of a report including results of all medical testing and the opinion of an impartial medical specialist in the field in which the medical conflict arose. The applicant may choose to submit the information using fax or email. FMCSA uses the information collected from the applicant, including medical information, to determine if the driver should be qualified. Without this provision and its
incumbent driver medical information collection requirements, an unqualified person may be permitted to drive and qualified persons may be prevented from driving.

Medical Exemptions and the Skill Performance Evaluation (SPE) Certificate Program

FMCSA may, on a case-by-case basis, grant a medical exemption from a physical qualification standard set forth in 49 CFR 391.41. To do so, the Agency must determine the exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved by complying with the regulation. Without an exemption, individuals who do not meet the requirements in 49 CFR 391.41 would not be qualified to operate a CMV in interstate commerce. Section 381.300 establishes the procedures that persons must follow to request exemptions from the FMCSRs. The Agency requires all medical exemptions to be renewed every 2 years to ensure that the granting of the exemption does not diminish safety. Exemption holders are required to submit annual medical information for review to ensure the driver continues to meet the criteria for an exemption.

Individuals with loss or impairment of limbs are permitted to operate a CMV if they are otherwise physically qualified and are issued an SPE certificate by FMCSA. The SPE certificate must be renewed every 2 years by submitting a renewal application that includes an MER Form.

The application process for medical exemptions and SPE certificates provides for electronic collection of the application information by FMCSA for those applicants who choose to submit the information electronically. They may fax or scan and email documents to FMCSA. The Vision Exemption Program and the SPE Certificate Program maintain a database of application information. The Medical Programs Division maintains a database of application information for hearing and seizure exemptions.
FMCSA must collect medical information about the driver’s medical condition in order to determine eligibility to receive a medical exemption or an SPE certificate. In the interest of highway safety, the medical examination, medical exemption, and SPE certificate renewal should not be performed less frequently.

The National Registry of Certified Medical Examiners

The National Registry of Certified Medical Examiners final rule (77 FR 24104, Apr. 20, 2012) requires MEs who conduct physical qualification examinations for interstate CMV drivers to complete training concerning FMCSA’s physical qualification standards, pass a certification test, and maintain competence through periodic training and testing, all of which require information collection. ME candidates submit demographic and eligibility data in order to register with the National Registry and begin the certification process. This data is used to provide the public with contact information for those healthcare professionals who are certified by FMCSA to conduct interstate CMV driver physical qualification examinations. Less frequent collection of ME candidate identity and eligibility information and test results could mean there are fewer MEs available to perform physical qualification examinations and to meet the needs of the CMV driver and motor carrier population. This could place a burden on drivers and motor carriers. Therefore, less frequent collection of ME candidate identity and eligibility information and test results is not an option.

MEs are required to transmit to FMCSA via the National Registry results of any CMV driver physical qualification examinations completed by midnight (local time) of the next calendar day following the examination. The reporting of results includes all CMV drivers (CDL/CLP and non-CDL/CLP) who are required to be medically certified to operate in interstate commerce and allows, but does not require, MEs to transmit any information about examinations performed in accordance with the FMCSR with any applicable State variances, which will be valid for intrastate operations only. Less
frequent collection of driver data would compromise FMCSA’s ability to determine ME
compliance with FMCSA requirements for performing CMV driver physical qualification
examinations. This could result in MEs being listed on the National Registry who should
be removed and possibly drivers who do not meet the physical qualification standards
possessing an MEC. Less frequent data collection would also result in decreased validity
of the data (i.e., less frequent data submission may increase the error rate due to
unintentional omission of examination information). Therefore, less frequent collection
of driver examination results is not an option.

The National Registry final rule also requires motor carriers to verify the National
Registry number of the MEs who certify their drivers and place a note in the DQ file.
Less frequent verification of the National Registry numbers by motor carriers could mean
drivers may not have been examined by an ME listed on the National Registry and may
not meet the physical qualifications standards of the FMCSRs.

As a follow-on rule to the National Registry final rule, the Medical Examiner’s
Certification Integration final rule (80 FR 22790, Apr. 23, 2015), modified several of the
requirements adopted in the National Registry final rule, some of which had a scheduled
compliance date of June 22, 2018. Specifically, it requires (1) FMCSA to electronically
transmit from the National Registry to the State Driver’s Licensing Agencies (SDLAs)
the driver identification information, examination results, and restriction information
from examinations performed for holders of CLPs/CDLs (interstate and intrastate); (2)
FMCSA to transmit electronically to the SDLAs the medical variance information for all
CMV drivers; and (3) SDLAs to post the driver identification, examination results, and
restriction information received electronically from FMCSA.

However, as the Medical Examiner’s Certification Integration final rule
compliance date approached, FMCSA concluded that the information technology
infrastructure necessary to implement the portions of the final rule that required the
electronic transmission of data would not be available on June 22, 2018. Accordingly, on June 21, 2018, FMCSA published a notice extending the compliance date for several of the provisions in the *Medical Examiner’s Certification Integration* final rule to June 22, 2021 (83 FR 28774).

As the June 22, 2021, compliance date approaches, FMCSA has concluded that additional time is needed for FMCSA to complete certain information technology system development tasks for its National Registry and to provide the SDLAs sufficient time to make the necessary information technology programming changes after the new National Registry system is available. Accordingly, FMCSA intends to amend its regulations to extend the compliance date from June 22, 2021, to June 23, 2025, for several provisions of its *Medical Examiner’s Certification Integration* final rule. Since the compliance date for these provisions will be extended until June 23, 2025, the annual burden hours and costs are not covered as part of this ICR.

**Qualifications of Drivers; Diabetes Standard**

As a result of the September 19, 2018, *Qualifications of Drivers; Diabetes Standard* final rule (83 FR 47486), the FMCSR s were amended to permit drivers with a stable insulin regimen and properly controlled insulin-treated diabetes mellitus (ITDM) to operate CMVs in interstate commerce. An individual with ITDM can obtain an MEC from an ME for up to a maximum of 12 months. To do so, the treating clinician, the healthcare professional who manages, and prescribes insulin for, the treatment of the individual’s diabetes must complete the Insulin-Treated Diabetes Mellitus Assessment Form, MCSA-5870, and attest to the ME that the individual maintains a stable insulin regimen and proper control of his or her diabetes. The ME must review the form and determine the individual meets FMCSA’s ITDM standard and other physical qualification standards. The information collection is necessary to ensure drivers meet
these standards. FMCSA allows treating clinicians to provide the form to MEs, if the treating clinicians choose to do so, using electronic communication such as fax or email.

**Title:** Medical Qualification Requirements.

**OMB Control Number:** 2126-0006.

**Type of Request:** Renewal of a currently approved collection.

**Respondents:** CMV drivers, motor carriers, Medical Examiners, testing centers, treating clinicians.

**Estimated Number of Respondents:** 6,225,262

**Expiration Date:** November 30, 2021

**Estimated Total Annual Burden:** 2,707,479 hours

This information collection is comprised of the following six information collection activities.

**Physical Qualification Standards**

2,144,680 annual burden hours

5,444,680 annual respondents

**Resolution of Medical Conflict**

11 annual burden hours

3 annual respondents

**Medical Exemptions**

2,529 annual burden hours

4,749 annual respondents

**SPE Certificate Program**

2,808 annual burden hours

2,567 annual respondents

**National Registry of Certified Medical Examiners**

556,797 annual burden hours
768,357 annual respondents

*Qualification of Drivers; Diabetes Standard*

654 annual burden hours

4,906 annual respondents

*Public Comments Invited:* You are asked to comment on any aspect of this information collection, including: (1) whether the proposed collection is necessary for the performance of FMCSA’s functions; (2) the accuracy of the estimated burden; (3) ways for FMCSA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized without reducing the quality of the collected information. The Agency will summarize or include your comments in the request for OMB’s clearance of this information collection.

Issued under the authority of 49 CFR 1.87.

**Thomas P. Keane,**

_Associate Administrator,_

*Office of Research and Registration._
