Medicaid and Children's Health Insurance Program (CHIP) Generic Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, Health and Human Services (HHS).

ACTION: Notice.

SUMMARY: On May 28, 2010, the Office of Management and Budget (OMB) issued Paperwork Reduction Act (PRA) guidance related to the “generic” clearance process. Generally, this is an expedited process by which agencies may obtain OMB’s approval of collection of information requests that are “usually voluntary, low-burden, and uncontroversial collections,” do not raise any substantive or policy issues, and do not require policy or methodological review. The process requires the submission of an overarching plan that defines the scope of the individual collections that would fall under its umbrella. On October 23, 2011, OMB approved our initial request to use the generic clearance process under control number 0938–1148 (CMS-10398). It was last approved on April 26, 2021, via the standard PRA process which included the publication of 60- and 30-day Federal Register notices. The scope of the April 2021 umbrella accounts for Medicaid and CHIP State plan amendments, waivers, demonstrations, and reporting. This Federal Register notice seeks public comment on one or more of our collection of information requests that we believe are generic and fall within the scope of the umbrella. Interested persons are invited to submit comments regarding our burden estimates or any other aspect of this collection of information, including: the necessity and utility of the proposed information collection for the proper performance of the agency’s functions, the accuracy of the estimated burden, ways to enhance the quality, utility and clarity of the information to be collected, and the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

DATES: Comments must be received by [INSERT DATE 14 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

Generic Information Collection

1. **Title of Information Collection:** Medicaid Managed Care Rate Development Guide; **Type of Information Collection Request:** Revision of a currently approved collection; **Use:** States are
required to submit rate certifications for all Medicaid managed care capitation rates per 42 CFR 438.7. Our collection of information request specifies our requirements for the rate certification and details what types of documentation we expect to be included. Elements include descriptions of data used, projected benefit and non-benefit costs, rate range development, risk and contract provisions, and other considerations in all rate setting packages. We also detail our expectations for states when they submit rate certifications.

Section 1903(m) of the Social Security Act requires capitation rates paid to Medicaid managed care organizations (MCOs) to be actuarially sound. Regulations at § 438.4 require all capitation rates paid to an MCO, Prepaid Inpatient Health Plan (PIHP), or Prepaid Ambulatory Health Plans (PAHP) to be actuarially sound and require that each state submit a rate certification for each set of capitation rates developed. Regulations at § 438.7(e) also require that CMS annually publish this guidance; Form Number: CMS-10398 (#37) (OMB control number: 0938–1148); Frequency: Occasionally; Affected Public: State, Local, or Tribal Governments; Number of Respondents: 46; Total Annual Responses: 135; Total Annual Hours: 608.
