SUPPLEMENTARY INFORMATION:

I. Background

Section 522 of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 360l) provides FDA with the authority to require manufacturers to conduct postmarket surveillance at the time of approval or clearance or any time thereafter of certain class II or class III devices. This draft guidance document will assist manufacturers of devices subject to section 522 postmarket surveillance orders by providing:

- an overview of section 522 of the FD&C Act;
- information on how to fulfill section 522 obligations, including:
  - when postmarket surveillance should be considered commenced;
  - recommendations for achieving an approved postmarket surveillance plan in a timely manner; and
  - recommendations for enrollment schedules to help achieve timely completion of postmarket surveillance;
- recommendations on the format, content, and review of postmarket surveillance plan and report submissions, including revised FDA review times for postmarket surveillance-related submissions; and
- updated surveillance status categories to better reflect progress.

This draft guidance document also aims to increase transparency to stakeholders on FDA’s approach to the issuance and tracking of 522 postmarket surveillance orders, and expectations for timely study completion.

This draft guidance is being issued consistent with FDA’s good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current
thinking of FDA on "Postmarket Surveillance Under Section 522 of the Federal Food, Drug, and Cosmetic Act." It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations.
