NEEDS AND USES: Per the authority vested in the Secretary of Defense (SECDEF) by Section 1711 of the National Defense Authorization Act of 2018, the Office of the Under Secretary of Defense for Acquisition and Sustainment (OUSD(A&S)) has proposed a “Trusted Capital” initiative in the form of a public-private partnership designed to convene trusted sources of private capital with innovative companies critical to the defense industrial base (DIB) and national security. The initiative includes establishment of a Trusted Capital Digital Marketplace (TCDM) to facilitate business relationships between eligible investors (“Capital Providers”) and eligible small and medium-sized businesses that have been “down-selected” by Department of Defense (DoD) Components based on relevancy, technical merit, business viability, or innovativeness (“Capability Providers”). The COVID-19 pandemic highlighted the criticality of the security and resiliency of defense supply chains. The Federal emergency enabled DoD to accelerate initiatives to identify constraints and risks in our supply chains that were initially identified in the Executive Order (E.O.) 13806 report, which was published in 2018. One of the risk archetypes identified in the report is foreign dependency on capital and supply chains. Although DoD will always have a diverse, domestic and international supply chain, we recognize that this comes with some risk. COVID-19 magnified that risk and the difficulties of offshore sources of capital and supply in times of global emergencies. The OUSD(A&S) Trusted Capital program offers critical technology companies an alternative to adversarial capital. To accomplish this important national security mission the Trusted Capital program requires the ability to gather data required to conduct national security and supply chain due-diligence to
prioritize “trusted” sources of commercial capital to offset direct financial distress in the DIB and
support our partners affected by the virus with investments and local job creation. Information
collected will be used in determining an applicant's eligibility for TCDM participation. Parties
will complete an electronic application and be subjected to a due diligence screening process to
assess for adversarial foreign ownership, influence, or control—as well as other national security
risks. In the event additional information is necessary to process an application, additional
inquiries may be sent to the applicant. Applicants that receive a favorable due diligence
screening adjudication by OUSD(A&S) will be approved for TCDM participation. In addition to
initial application requirements, participants will be subject to continuous reporting obligations.
