SUMMARY: As a result of this expedited sunset review, the Department of Commerce (Commerce) finds that revocation of the antidumping duty (AD) order on seamless carbon and alloy steel standard, line and pressure pipe (SSLP) from the People’s Republic of China (China) would be likely to lead to continuation or recurrence of dumping at the levels indicated in the “Final Results of Review” section of this notice.

SUPPLEMENTARY INFORMATION:

Background

On November 10, 2010, the Department of Commerce (Commerce) published in the Federal Register a notice of the AD order on seamless carbon and alloy steel standard, line and pressure pipe from China. On February 1, 2021, Commerce published its initiation of the second sunset review of the Order, pursuant to section 751(c) of the Tariff Act of 1930, as

amended (the Act). From February 5, through 16, 2021, Commerce received timely and complete notices of intent to participate in the sunset review in relation to the Order from domestic interested parties within the deadline specified in 19 CFR 351.218(d)(1)(i). The domestic interested parties claimed interested party status pursuant to section 771(9)(C) of the Act as manufacturers in the United States of the domestic like product.

On March 3, 2021, the domestic interested parties filed a timely and adequate substantive response within the deadline specified in 19 CFR 351.218(d)(3)(i). Commerce did not receive substantive responses from any respondent interested party with respect to the Order covered by this sunset review. As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), Commerce conducted an expedited (120-day) sunset review of the Order.

Scope of the Order

The merchandise covered by this order is certain seamless carbon and alloy steel (other than stainless steel) pipes and redraw hollows, less than or equal to 16 inches (406.4 mm) in outside diameter, regardless of wall-thickness, manufacturing process (e.g., hot-finished or cold-drawn), end finish (e.g., plain end, beveled end, upset end, threaded, or threaded and coupled), or surface finish (e.g., bare, lacquered or coated). Redraw hollows are any unfinished carbon or alloy steel (other than stainless steel) pipe or “hollow profiles” suitable for cold finishing
operations, such as cold drawing, to meet the American Society for Testing and Materials ("ASTM") or American Petroleum Institute ("API") specifications referenced below, or comparable specifications. Specifically included within the scope are seamless carbon and alloy steel (other than stainless steel) standard, line, and pressure pipes produced to the ASTM A-53, ASTM A-106, ASTM A-333, ASTM A-334, ASTM A-589, ASTM A-795, ASTM A-1024, and the API 5L specifications, or comparable specifications, and meeting the physical parameters described above, regardless of application, with the exception of the exclusion discussed below.

Specifically excluded from the scope of the order are: (1) all pipes meeting aerospace, hydraulic, and bearing tubing specifications; (2) all pipes meeting the chemical requirements of ASTM A-335, whether finished or unfinished; and (3) unattached couplings. Also excluded from the scope of the order are all mechanical, boiler, condenser and heat exchange tubing, except when such products conform to the dimensional requirements, i.e., outside diameter and wall thickness of ASTM A-53, ASTM A-106 or API 5L specifications.

Although the HTSUS subheadings are provided for convenience and customs purposes, our written description of the merchandise subject to this scope is dispositive.7

Final Results of Sunset Review

Pursuant to sections 751(c)(1) and 752(c)(1) and (3) of the Act, Commerce determines that revocation of the Order on SSLP from China would be likely to lead to a continuation or recurrence of dumping, and that the magnitude of the dumping margins likely to prevail is up to 98.74 percent.
