Certain Uncoated Paper from the People’s Republic of China: Final Results of the Expedited Five-Year Sunset Review of the Countervailing Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of this sunset review, the Department of Commerce (Commerce) finds that revoking the countervailing duty (CVD) order on certain uncoated paper (uncoated paper) from the People’s Republic of China (China) would likely lead to continuation or recurrence of countervailable subsidies at the levels indicated in the “Final Results of Review” section of this notice.

DATES: Applicable [INSERT DATE OF PUBLICATION IN THE FEDERAL REGISTER].

SUPPLEMENTARY INFORMATION:

Background

On March 3, 2016, Commerce published in the Federal Register the CVD Order on uncoated paper from China.¹ On February 1, 2021, Commerce published the notice of initiation of the first sunset review of the Order, pursuant to section 751(c) of the Tariff Act of 1930, as

amended (the Act). On February 12, 2021, Commerce received a notice of intent to participate from Domtar Corporation (Domtar), Finch Paper LLC (Finch Paper), and North Pacific Paper Company (NORPAC), within the deadline specified in 19 CFR 351.218(d)(1)(i). Domtar, Finch Paper, and NORPAC claimed interested party status under section 771(9)(C) of the Act, as domestic producers of uncoated paper in the United States. On February 16, 2021, Commerce also received a notice of intent to participate from Packaging Corporation of America (PCA) and United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Services Workers International Union (USW). PCA claimed interested party status under section 771(9)(C) of the Act and 19 CFR 351.102(b)(29)(v), as a domestic producer of uncoated paper in the United States, and USW claimed interested party status under section 771(9)(D) of the Act and 19 CFR 351.102(b)(29)(vi), as a certified union with workers engaged in the manufacture and production of the domestic like product in the United States.

On March 1, 2021, Commerce received a substantive response from the domestic interested parties within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i). We received no substantive response from any other domestic or interested parties in this proceeding and no hearing was requested.

On March 23, 2021, Commerce notified the U.S. International Trade Commission that it did not receive an adequate substantive response from respondent interested parties. As a result, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(C)(2), Commerce conducted an expedited (120-day) sunset review of this Order.

\(^8\) One of the key measurements of any grade of paper is brightness. Generally speaking, the brighter the paper the better the contrast between the paper and the ink. Brightness is measured using a GE Reflectance Scale, which measures the reflection of light off a grade of paper. One is the lowest reflection, or what would be given to a totally black grade, and 100 is the brightest measured grade. “Colored paper” as used in this scope definition means a paper with a hue other than white that reflects one of the primary colors of magenta, yellow, and cyan (red, yellow, and blue) or a combination of such primary colors.
