National Oceanic and Atmospheric Administration

[RTID 0648-XB165]

Fisheries of the South Atlantic; Southeast Data, Assessment, and Review (SEDAR);

Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and
Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 77 Highly Migratory Species (HMS) Hammerhead Shark
Stock Identification (ID) webinar 1.

SUMMARY: The SEDAR 77 assessment of the Atlantic stock of hammerheads sharks
will consist of a stock ID process, data webinars/workshop, a series of assessment
webinars, and a review workshop.

DATES: The SEDAR 77 HMS Hammerhead Shark Stock ID webinar 1 has been
scheduled for Tuesday July 20, 2021, from 10 a.m. until 1 p.m. ET.

ADDRESSES:

Meeting address: The meeting will be held via webinar. The webinar is open to
members of the public. Registration is available online at:

https://attendee.gotowebinar.com/register/7340326848399428367

SEDAR address: South Atlantic Fishery Management Council, 4055 Faber Place
Drive, Suite 201, N. Charleston, SC 29405; www.sedarweb.org.

FOR FURTHER INFORMATION CONTACT: Kathleen Howington, SEDAR
Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; phone:
(843) 571-4371; email: Kathleen.Howington@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and
Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the
Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion at the SEDAR 77 HMS Hammerhead Shark Stock ID webinar 1 are as follows:

- Participants will use review genetic studies, growth patterns, and any other relevant information on hammerhead shark stock structure.
- Participants will make preliminary recommendations on biological stock structure and define the unit stock or stocks to be addressed through this assessment.
Participants will review and request additional stock structure analyses if needed.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

This meeting is accessible to people with disabilities. Requests for auxiliary aids should be directed to the South Atlantic Fishery Management Council office (see ADDRESSES) at least 5 business days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C.1801 et seq.

Dated: June 21, 2021.

Tracey L. Thompson,

Acting Deputy Director,

Office of Sustainable Fisheries,

National Marine Fisheries Service.
