SUPPLEMENTARY INFORMATION:

Background

Section 312 of the Coastal Zone Management Act (CZMA), 16 U.S.C. § 1458, requires NOAA to conduct periodic evaluations of federally approved national estuarine research reserves. The process includes one or more public meetings, consideration of written public comments, and consultations with interested Federal, state, and local agencies and members of the public. During the evaluation, NOAA will consider the extent to which the state of California has met the national objectives, adhered to the reserve’s management plan approved by the Secretary of Commerce, and adhered to the terms of financial assistance under the CZMA. When the evaluation is completed, NOAA’s Office for Coastal Management will place a notice in the Federal Register announcing the availability of the Final Evaluation Findings.

Keelin Kuipers,

Deputy Director, Office for Coastal Management,

National Ocean Service,

National Oceanic and Atmospheric Administration.
