Welded Line Pipe From the Republic of Korea and the Republic of Turkey: Continuation of Antidumping and Countervailing Duty Orders

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the Department of Commerce (Commerce) and the International Trade Commission (ITC) that revocation of the antidumping duty (AD) and countervailing duty (CVD) orders on welded line pipe from the Republic of Korea (Korea) and the Republic of Turkey (Turkey) would likely lead to continuation or recurrence of dumping, net countervailable subsidies, and material injury to an industry in the United States, Commerce is publishing a notice of continuation of these AD and CVD orders.

DATES: Applicable [Insert date of publication in the Federal Register].

SUPPLEMENTARY INFORMATION:

Background

On December 1, 2015, Commerce published the AD orders on welded line pipe from Korea and Turkey,\(^1\) and the CVD order on welded line pipe from Turkey.\(^2\) On November 2,
2020, the ITC instituted,\(^3\) and on November 3, 2020, Commerce initiated,\(^4\) the first five-year (sunset) reviews of the *AD Orders* and the *CVD Order*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). As a result of its reviews, Commerce determined that revocation of the *AD Orders* would be likely to lead to continuation or recurrence of dumping, and revocation of the *CVD Order* would be likely to lead to continuation or recurrence of countervailable subsidies. Therefore, Commerce notified the ITC of the magnitude of the margins of dumping and the net subsidy rates likely to prevail should the *AD Orders* and the *CVD Order* be revoked.\(^5\)

On June 24, 2021, the ITC published its determinations, pursuant to sections 751(c) and 752(a) of the Act, that revocation of the *AD Orders* and the *CVD Order* would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.\(^6\)

**Scope of the Orders**

The scope of these orders is circular welded carbon and alloy steel (other than stainless steel) pipe of a kind used for oil or gas pipelines (welded line pipe), not more than 24 inches in nominal outside diameter, regardless of wall thickness, length, surface finish, end finish, or stenciling. Welded line pipe is normally produced to the American Petroleum Institute (API) specification 5L, but can be produced to comparable foreign specifications, to proprietary grades, or can be non-graded material. All pipe meeting the physical description set forth above, including multiple-stenciled pipe with an API or comparable foreign specification line pipe stencil is covered by the scope of these orders.

Continuation of the Orders

As a result of the determinations by Commerce and the ITC that revocation of the AD Orders and the CVD Order would likely lead to a continuation or a recurrence of dumping, countervailable subsidies, and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act and 19 CFR 351.218(a), Commerce hereby orders the continuation of the AD Orders and the CVD Order. U.S. Customs and Border Protection will continue to collect AD and CVD cash deposits at the rates in effect at the time of entry for all imports of subject merchandise.

The effective date of the continuation of the AD Orders and the CVD Order will be the date of publication in the Federal Register of this notice of continuation. Pursuant to section 751(c)(2) of the Act and 19 CFR 351.218(c)(2), Commerce intends to initiate the next five-year review of the AD Orders and the CVD Order not later than 30 days prior to the fifth anniversary of the effective date of continuation.
