SUPPLEMENTARY INFORMATION:

I. Background

In a document published in the Federal Register of May 11, 2020 (85 FR 27692), FDA announced that we had filed a food additive petition (animal use) (FAP 2312) submitted by Adisseo France S.A.S.; Immeuble Antony Parc II, 10 Place du Général de Gaulle, 92160 Antony, France. The petition proposed that the regulations for food additives permitted in feed and drinking water of animals be amended to provide for the safe use of selenomethionine hydroxy analogue as a source of selenium in feed for beef and dairy cattle.

II. Conclusion

FDA concludes that the data establish the safety and utility of selenomethionine hydroxy analogue as a source of selenium in feed for beef and dairy cattle and that the food additive regulations should be amended as set forth in this document.

III. Public Disclosure

In accordance with § 571.1(h) (21 CFR 571.1(h)), the petition and documents we considered and relied upon in reaching our decision to approve the petition will be made available for public disclosure (see FOR FURTHER INFORMATION CONTACT). As provided in § 571.1(h), we will delete from the documents any materials that are not available for public disclosure.

IV. Analysis of Environmental Impact

We have determined under 21 CFR 25.32(r) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.

V. Objections and Hearing Requests
Any person who will be adversely affected by this regulation may file with the Dockets Management Staff (see ADDRESSES) either electronic or written objections. Each objection shall be separately numbered, and each numbered objection shall specify with particularity the provision of the regulation to which objection is made and the grounds for the objection. Each numbered objection on which a hearing is requested shall specifically so state. Failure to request a hearing for any particular objection shall constitute a waiver of the right to a hearing on that objection. Each numbered objection for which a hearing is requested shall include a detailed description and analysis of the specific factual information intended to be presented in support of the objection in the event that a hearing is held. Failure to include such a description and analysis for any particular objection shall constitute a waiver of the right to a hearing on the objection.
