[Docket No. FAA-2021-0170; Airspace Docket No. 21-AEA-4]

RIN 2120-AA66

Proposed Establishment of Class E Airspace and Proposed Amendment of Class D Airspace; East Hampton, NY

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to establish Class E surface airspace for East Hampton Airport, East Hampton, NY, to assist aircraft landing and departing the airport when the air traffic control tower is closed. In addition, this action would amend Class D airspace by replacing the outdated term Airport/Facility Directory with the term Chart Supplement in the airport description and amend the radius and ceiling as the Federal Aviation Administration (FAA) deemed the airspace adjustments were necessary.

Controlled airspace is necessary for the safety and management of instrument flight rules (IFR) operations in the area.

Authority for this Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in
Title 49 of the United States Code. Subtitle I, Section 106, describes the
authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in
more detail the scope of the agency’s authority. This rulemaking is promulgated
under the authority described in Subtitle VII, Part A, Subpart I, Section 40103.
Under that section, the FAA is charged with prescribing regulations to assign
the use of airspace necessary to ensure the safety of aircraft and the efficient
use of airspace. This regulation is within the scope of that authority, as it would
establish Class E airspace and amend Class D airspace for East Hampton
Airport, East Hampton, NY, to support IFR operations in the area.

Availability and Summary of Documents for Incorporation by Reference

This document proposes to amend FAA Order 7400.11E, Airspace Designations, and Reporting Points, dated July 21, 2020, and effective September 15, 2020. FAA Order 7400.11E is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11E lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA proposes an amendment to 14 CFR part 71 to establish Class E surface airspace for East Hampton Airport, East Hampton, NY, providing the controlled airspace required to support aircraft landing and departing in IFR conditions at this airport. In addition, this action would amend Class D airspace by decreasing the radius to 4.2 miles (from 4.8) and the ceiling to 2,000 feet
MSL (from 2,500) and replacing the outdated term Airport/Facility Directory with the term Chart Supplement in the airport description.

Class D and E airspace designations are published in Paragraphs 5000 and 6002, respectively, of FAA Order 7400.11E, dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Class D and E airspace designations listed in this document will be published subsequently in the Order.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

**Regulatory Notices and Analyses**

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

**Environmental Review**
This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” prior to any FAA final regulatory action.
