**Needs and Uses:** The information collection requirements that are approved under this collection are as follows:

47 CFR 73.1212 requires a broadcast station to identify at the time of broadcast the sponsor of any matter for which consideration is provided. For advertising commercial products or services, generally the mention of the name of the product or service constitutes sponsorship identification. In the case of television political advertisements concerning candidates for public office, the sponsor shall be identified with letters equal to or greater than four (4) percent of the vertical height of the television screen that airs for no less than four (4) seconds. In addition, when an entity rather than an individual sponsors the broadcast of matter that is of a political or controversial nature, licensee is required to retain a list of the executive officers, or board of directors, or executive committee, etc., of the organization paying for such matter. Sponsorship announcements are waived with respect to the broadcast of “‘want ads’ sponsored by an individual but the licensee shall maintain a list showing the name, address and telephone number of each such advertiser. These lists shall be made available for public inspection.

47 CFR 73.1212(e) states that, when an entity rather than an individual sponsors the broadcast of matter that is of a political or controversial nature, the licensee is required to retain a list of the executive officers, or board of directors, or executive committee, etc., of the organization paying for such matter in its public file. Pursuant to the changes contained in 47 CFR 73.1212(e) and 47 CFR 73.3526(e)(19), this list, which could contain personally identifiable information, would be located in a public inspection file to be located on the Commission’s website instead of being maintained in the public file at the station. Burden estimates for this change are included in OMB Control Number 3060–0214.

47 CFR 76.1615 states that, when a cable operator engaged in origination cablecasting presents any matter for which money, service or other valuable consideration is provided to such cable television system operator, the cable television system operator, at the time of the telecast, shall identify the sponsor. Under this rule section, when advertising commercial products or
services, an announcement stating the sponsor’s corporate or trade name, or the name of the
sponsor’s product is sufficient when it is clear that the mention of the name of the product
constitutes a sponsorship identification. In the case of television political advertisements
concerning candidates for public office, the sponsor shall be identified with letters equal to or
greater than four (4) percent of the vertical height of the television screen that airs for no less than
four (4) seconds.

47 CFR 76.1715 state that, with respect to sponsorship announcements that are waived
when the broadcast/origination cablecast of “want ads” sponsored by an individual, the
licensee/operator shall maintain a list showing the name, address and telephone number of each
such advertiser. These lists shall be made available for public inspection.

information collection requirements will also enable interested parties to monitor the extent of
such efforts to persuade the American public.

Nature and Extent of Confidentiality: Most of the documents comprising the public file consist of materials that are not of a confidential nature. The filing must state the date and time the program aired. In the case of repeat airings of the program, those additional dates and times should also be included. Where an aural announcement was made, its contents must be reduced to writing and placed in the online public inspection file in the same manner.

This information collection requirement will provide the Commission and the public with increased transparency and will ensure that audiences of broadcast stations are aware when a foreign government, or its representatives, are seeking to persuade the American public. The information collection requirements will also enable interested parties to monitor the extent of such efforts to persuade the American public.
