[Docket No. USCG-2013-0423]

RIN 1625-AB94

2013 Liquid Chemical Categorization Updates

AGENCY: Coast Guard, DHS.

ACTION: Correcting amendments.

SUMMARY: In April 2020, the Coast Guard published a final rule updating the Liquid Chemical Categorization tables, aligning them with the International Code for the Construction and Equipment of Ships Carrying Dangerous Chemicals in Bulk and the International Maritime Organization’s Marine Environment Protection Committee circulars from December 2012 and 2013. In May 2020, the Coast Guard published amendments to correct minor typographical errors in those regulations. Some minor corrections still need to be made. This document corrects the tables in the final regulations.

DATES: Effective on [INSERT DATE OF PUBLICATION].

FOR FURTHER INFORMATION CONTACT: LCDR Daniel Velez, Coast Guard; telephone 202-372-1419, email Daniel.velez@uscg.mil, or Dr. Raghunath Halder, Coast Guard; telephone (202) 372-1422, email Raghunath.Halder@uscg.mil.

SUPPLEMENTARY INFORMATION: The Coast Guard published the 2012 Liquid Chemical Categorization Updates interim rule on August 16, 2013 (Volume 78 of the Federal Register (FR) at Page 50147). We published a supplemental notice of proposed rulemaking (SNPRM) on October 22, 2015 (80 FR 64191) and published a final rule on
April 17, 2020 (85 FR 21660). On May 8, 2020, we published a correcting amendment to that final rule (85 FR 27308).

During development of the May 8, 2020, amendment, the Coast Guard identified errors that prompted a more extensive review. That review has resulted in this correcting amendment, which, among other corrections, re-alphabetizes certain lists of chemicals, removes duplicate chemicals, and resolves minor typographical errors such as italicization. The interim rule, the SNPRM, the final rule, the May 2020 correction, and this document all share the same docket number.

As the errors are not substantive, and correcting them aligns the final text with the stated purpose of the rulemaking, the Coast Guard finds that additional notice and opportunity for public comment is unnecessary under Title 5 of the United States Code (U.S.C.), Section 553(b). For the same reasons, and to forestall any confusion caused by incorrect text, the Coast Guard finds good cause under 5 U.S.C. 553(d) to make the corrected text effective upon publication in the Federal Register.

Accordingly, 46 CFR parts 30, 150, and 153 are corrected by making the following correcting amendments:

**List of Subjects**

46 CFR Part 30

Cargo vessels, Foreign relations, Hazardous materials transportation, Penalties, Reporting and recordkeeping requirements, Seamen.

46 CFR Part 150

Hazardous materials transportation, Marine safety, Occupational safety and health, Reporting and recordkeeping requirements.

46 CFR Part 153
Administrative practice and procedure, Cargo vessels, Hazardous materials transportation, Marine safety, Reporting and recordkeeping requirements, Water pollution control.

Therefore, the Coast Guard amends 46 CFR parts 30, 150, and 153 as follows.
