II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a proposed collection of information to OMB for review entitled "Tribal Participation in the Advance Notification Program." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a *Federal Register* notice with a 60-day comment period on this information collection on April 5, 2021 (86 FR 17646).

1. *The title of the information collection:* "Tribal Participation in the Advance Notification Program."
2. *OMB approval number:* An OMB control Number has not yet been assigned to this proposed information collection.
3. *Type of submission:* New.
4. *The form number, if applicable:* Not applicable.
5. *How often the collection is required or requested:* Information would be requested: 1) every five years, 2) after an Indian Tribe achieves Federal recognition, 3) when a transportation route is approved that is within an Indian Tribe's reservation or that crosses a reservation boundary, and 4) when there are changes. Information is requested from those Indian Tribes seeking to receive advance notifications. Some

information is requested one time.

6. *Who will be required or asked to respond:* Federally recognized Indian Tribes. Only those federally recognized Indian Tribes with reservations and either receiving or seeking to receive the advance notifications would be asked to respond to the specific information request.

7. *The estimated number of annual responses:* 22 (7 reporting responses + 15 recordkeepers).

8. *The estimated number of annual respondents:* 15.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 34.5 (24.5 hours reporting + 10 hours recordkeeping).

10. *Abstract:* In order to receive notifications when certain shipments of nuclear waste or shipments of irradiated reactor fuel within or across the boundary of an Indian Tribe's reservation, Indian Tribes will submit certifications that Tribal official or their designee(s) has (or have) taken training on the handling of safeguards information (SGI) and the Indian Tribe has the necessary protection measures in place and the Indian Tribe will protect the SGI. If the Tribal official is designating another person to receive the advance notifications, information on the designation will be provided. The Indian Tribe will also provide the contact information for the Tribal official or the Tribal official's designee(s). The Indian Tribe will also provide an affirmation of the boundaries of the Indian Tribe's reservation or the necessary corrections to a map provided by the NRC. The NRC will also collect the name and contact information for the Indian Tribe's emergency response contact(s). The NRC makes this information available to others, including NRC licensees and agreement state licensees. NRC licensees will use the information to comply with the NRC's regulations that require them to provide advance notice of certain shipments of radioactive material to participating Indian Tribes.
