Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. Description of Request: The River Falls Hydroelectric Project consists of the Junction Falls and Powell Falls developments. The applicant seeks approval to decommission and remove the Powell Falls development from the project license, keeping the facilities in place. As background, a flood damaged the Powell Falls development right training wall, as well as other project-related generating equipment in June 2020. This event necessitated a drawdown of the impoundment (Lake Louise) to investigate the extent of damage. Rather than refill the impoundment and restore generation, the applicant now proposes to remove the development from the project license.
