k. Description of Request: Brookfield White Pine Hydro, LLC, licensee for the Shawmut Hydroelectric Project (P-2322), requests Commission approval to amend the license for the project to incorporate the provisions of an Interim Species Protection Plan (Interim Plan) for Atlantic salmon. On May 19, 2016, the Commission approved an Interim Plan for the Shawmut, Lockwood (P-2574), and Weston (P-2325) Projects (May 2016 Order), which expired on December 31, 2019.

Under the proposed Interim Plan, the licensee would continue the protection measures for the Shawmut project contained in the expired Interim Plan, plus additional supplemental measures. The licensee also proposes to continue to implement the terms and conditions for the Shawmut project contained in the expired Incidental Take Statement and Biological Opinion, until such time as the Commission issues a decision on the relicense application.

In addition, the licensee requests the Commission remove the requirement for the construction of an upstream fishway at the Shawmut Project, as required under the current license term pursuant to the May 2016 Order. In a letter issued July 13, 2020, Commission staff determined that construction of the proposed fish lift should be considered in the relicensing proceeding.
