The Agency is taking this action in response to requests for an extension to allow interested persons additional time to submit comments.

SUPPLEMENTARY INFORMATION: In the *Federal Register* of June 15, 2021, FDA published a request for comments with a 90-day comment period to request comments on the use of study data exchange standards from persons involved in study conduct, data collection, data management, and submission of animal study data intended to support the approval of NDAs, ANDAs, or applications for conditional approval. Comments on the use of study data exchange standards will help us evaluate the potential use of study data exchange standards for animal studies submitted as part of the new animal drug approval process.

Interested persons were originally given until September 13, 2021, to comment on the document. The Agency has received a request for a 60-day extension of the comment period. The request conveyed concern that the current 90-day comment period does not allow sufficient time to develop a meaningful or thoughtful response to the request for comments. FDA has considered the request and is extending the comment period for the request for comments for 60 days, until November 12, 2021. The Agency believes that a 60-day extension allows adequate time for interested persons to submit comments.

Dated: August 20, 2021.
