In compliance with Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below.

Proposed Collection: Stakeholder Measures and Advocate Forms at the National Cancer Institute (NCI), OMB #0925- NEW: Expiration Date XX/XX/XXXX, NEW, National Cancer Institute (NCI), National Institutes of Health (NIH).

Need and Use of Information Collection: The Office of Advocacy Relations (OAR) has collected data from different stakeholder constituencies: NIH and NCI staff, NCI-funded scientists and staff from universities and cancer centers, research advocates and their advocacy organizations, and members of scientific and professional societies and their organizations concerned about cancer. OAR uses the Profile Completion Questionnaire to capture applicant information such as basic contact information, age, gender, race and ethnicity, work focus, employment status, health experiences, and research advocacy experience. In addition, a post-activity survey is requested to ensure the advocates received property support by assessing satisfaction, expectations, involvement, barriers,

and recruitment while working with the NCI. OAR continues to use the database system, which will allow this information to be collected electronically to match advocates easily and appropriately to NCI initiatives and activities as well as to assist NCI researchers in finding advocates to support their activities. In the previous three years, OAR has welcomed 49 advocates into our network. Advocates have contributed to over 30 activities, ranging widely in scope and duration. Several examples include speaking engagements, Task Force appointments, Steering Committee appointments, webinars, Advisory Board appointments, etc. These forms were previously approved as, “Generic Submission for Formative Research, Pre-testing, Stakeholder Measures and Advocate Forms at NCI” (OMB #: 0925-0641, Expiration Date: 1/31/2021). However, since OAR has not submitted Gen ICs for the past approvals this is being submitted as a new submission.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 16.
