This notice sets out a summary of the use and burden associated with the following information collections. More detailed information can be found in each collection's supporting statement and associated materials (see **ADDRESSES**).

CMS-R-284 Transformed – Medicaid Statistical Information System (T-MSIS)

CMS-10387 Minimum Data Set 3.0 Nursing Home and Swing Bed Prospective Payment System (PPS) For the collection of data related to the Patient Driven Payment Model and the Skilled Nursing Facility Quality Reporting Program (QRP)

Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term "collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit

reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA requires federal agencies to publish a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, CMS is publishing this notice.

Information Collection

1. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Transformed – Medicaid Statistical Information System (T-MSIS); *Use:* The data reported in T-MSIS are used by federal, state, and local officials, as well as by private researchers and corporations to monitor past and projected future trends in the Medicaid program. The data provide the only national level information available on enrollees, beneficiaries, and expenditures. It also provides the only national level information available on Medicaid utilization. The information is the basis for analyses and for cost savings estimates for the Department's cost sharing legislative initiatives to Congress. The collected data are also crucial to our actuarial forecasts. *Form Number:* CMS-R-284 (OMB control number: 0938-0345); *Frequency:* Quarterly and monthly; *Affected Public:* State, Local, or Tribal Governments; *Number of Respondents:* 54; *Total Annual Responses:* 684; *Total Annual Hours:* 6,480. (For policy questions regarding this collection contact Connie Gibson at 410-786-0755.)

2. *Type of Information Collection Request:* Revision of a currently approved collection; *Title of Information Collection:* Minimum Data Set 3.0 Nursing Home and Swing Bed Prospective Payment System (PPS) For the collection of data related to the Patient Driven Payment Model and the Skilled Nursing Facility Quality Reporting Program (QRP); *Use:* We are requesting to implement the MDS 3.0 v1.17.2 from Oct 1, 2020 to Oct 1, 2023. On May 15, 2020, in response to State Medicaid Agency and stakeholder requests, we updated the MDS 3.0 item sets to version 1.17.2. The changes in this version will allow State Medicaid Agencies to collect Patient Driven Payment Model (PDPM) payment codes and thereby inform

their future payment models. Calculation of the PDPM payment code on OBRA assessment is not a federal requirement. These item set changes do not reflect any change in burden from the previous version, MDS 3.0 v1.17.1.

CMS uses the MDS 3.0 PPS Item Set to collect the data used to reimburse skilled nursing facilities for SNF-level care furnished to Medicare beneficiaries and to collect information for quality measures and standardized patient assessment data under the SNF QRP. *Form Number*: CMS-10387 (OMB control number: 0938-1140); *Frequency*: Yearly; *Affected Public*: Private Sector: Business or other for-profit and not-for-profit institutions; *Number of Respondents*: 15,471; *Total Annual Responses*: 4,905,042; *Total Annual Hours*: 4,169,286. (For policy questions regarding this collection contact Heidi Magladry at 410-786-6034).
