SUPPLEMENTARY INFORMATION:

Background

Section 115 of the Copyright Act, title 17 of the United States Code, requires a copyright owner of a nondramatic musical work to grant a license (also known as the “mechanical” compulsory license) to any person who wants to make and distribute phonorecords of that work, provided that the copyright owner has allowed phonorecords of the work to be produced and distributed, and that the licensee complies with the statute and regulations. In addition to the production or distribution of physical phonorecords (compact discs, vinyl, cassette tapes, and the like), section 115 applies to digital transmissions of phonorecords, including permanent digital downloads and ringtones.

Chapter 8 of the Copyright Act requires the Copyright Royalty Judges (Judges) to conduct proceedings every five years to determine the rates and terms for the section 115 license. 17 U.S.C. 801(b)(1), 804(b)(4). Accordingly, the Judges commenced the current proceeding in January 2021, by publishing notice of the commencement and soliciting petitions to participate from interested parties. See 86 FR 25 (Jan. 5, 2021).

The Judges received petitions to participate in the current proceeding from Amazon.com Services LLC, Apple Inc., Copyright Owners (joint petitioners Nashville Songwriters Association International (NSAI) and National Music Publishers’ Association (NMPA)), Google LLC, George Johnson, Joint Record Company Participants (filed by Recording Industry Association of America, Inc. for joint petitioners Sony Music Entertainment, UMG Recordings, Inc., and Warner Music Group
Corporation (CRA), Pandora Media, LLC, David Powell, SoundCloud Operations Inc.,
Spotify USA Inc., and Brian Zisk.2

The Judges gave notice to all participants of the three-month negotiation period
required by 17 U.S.C. 803(b)(3) and directed that, if the participants were unable to
negotiate a settlement, they should submit Written Direct Statements no later than
September 10, 2021. On May 25, 2021, the Judges received a motion stating that several
participants3 had reached a partial settlement regarding the rates and terms for the period
commencing in January 2023 under Section 115 of the Copyright Act, namely, the
applicable rates for use of musical works in physical phonorecords, permanent
downloads, ringtones, and music bundles (Subpart B Configurations)4 and seeking
approval of that partial settlement. See Motion to Adopt Settlement of Statutory Royalty
Rates and Terms for Subpart B Configurations, Docket No. 21-CRB-0001-PR (2023-
2027) at 1 (May 25, 2021). The Judges published for comment a proposed rule and
received comments in opposition to the settlement from twelve interested parties,
including joint comments from organizations, trade associations, and self-assembled
groups of parties.5 See 86 FR 33601 (June 25, 2021), 86 FR 40793 (Jul. 29, 2021)
(reopening comment period), 86 FR 58626 (Oct. 22, 2021) (reopening comment period a
second time).

After considering the comments in opposition to the settlement, the Judges
withdrew the proposed rule that would have adopted that settlement as statutory royalty

---

1 SoundCloud Operations Inc. withdrew from the proceeding on May 21, 2021.
2 David Powell and Brian Zisk filed petitions to participate in this proceeding; neither filed a Written Direct
Statement.
3 The participants who filed the motion are the “Copyright Owners” (NMPA and NSAI) and the “Record
Company Participants” (Sony Music Entertainment, UMG Recordings, Inc. and Warner Music Group
Corp.). Motion at 1.
4 Subpart B refers to subpart B, part 385, subchapter E, chapter III, 37 CFR, the regulations detailing
royalty rates and terms for licensing musical works under the provisions of 17 U.S.C 115 (Copyright Act).
5 One participant in the proceeding, George Johnson d/b/a GEO Music, objected to the settlement. Other
parties opposing adoption of the settlement as a basis for statutory rates and terms included songwriters,
publishers, music industry attorneys, and trade associations.
rates. See Proposed rule; withdrawal; Determination of Royalty Rates and Terms for Making and Distributing Phonorecords (Phonorecords IV), 87 FR 18342 (Mar. 30, 2022).

On May 5, 2022, the Judges received a Joint Motion to Adopt New Settlement of Statutory Royalty Rates and Terms for Subpart B Configurations (Motion). The moving parties are self-identified Copyright Owners and self-identified Record Company Participants. The full text of the Motion is available on eCRB (https://app.crb.gov).7

On May 19, 2022, George Johnson d/b/a GEO, filed a response in opposition to the Motion.8

The settlement proposes that the section 115 royalty rate for subpart B configurations for the rate period commencing January 1, 2023, be set at $0.12 per track, with annual inflation-based adjustments for subsequent years of the rate period. Motion at 3. The Moving Parties proposed editorial and substantive changes to applicable regulations found in both subparts A and B of part 385 to accomplish the rate increase.

The proposed editorial changes apply to two definitions in subpart A and would clarify the reach and application of the terms “Licensed Activity,” and “Sound Recording Company.” The substantive changes occur in secs. 385.10 and 385.11, which state the proposed rate for 2023 and describe the proposed annual inflation-based rate adjustment for subsequent years. The Moving Parties provided a redlined version of the regulations and the proposed changes thereto, along with the stated rationale for each change. Motion at 6-7.

---

6 The composition of the moving parties is the same as in the original motion filed in May 2021.

7 The Motion stated that the Moving Parties had previously separately entered into a memorandum of understanding (MOU) addressing certain negotiated licensing processes and late fee waivers but that the MOU was “not consideration” for any of the terms of the current settlement. See Motion at 4 n. 2; 6. (https://app.crb.gov/document/download/26619). The Moving Parties contend that predecessor agreements to the MOU, some or all of which may be incorporated by reference in the current MOU, are publicly available online at http://nmpalatefeesettlement.com/.

8 In general, the Judges do not receive pleadings in opposition to a motion that triggers publication of notice, such as the Motion at issue here. Nonetheless, the Judges received and considered GEO’s timely opposition. The Judges will not consider that opposition as a formal comment as required by publication in the Federal Register. The Moving Parties communicated to the Judges that no reply is forthcoming.
As part of this proposed rule, the Judges propose an additional minor revision to the definition of “Eligible Digital Download” in section 385.2. The cross-reference to 17 USC 115(c)(3)(C) and (D) in that definition is shortened to 17 USC 115 because, following enactment of the Music Modernization Act, the section no longer has a subsection (c)(3). See Orrin G. Hatch-Bob Goodlatte Music Modernization Act, Public Law 115-264, 132 Stat. 3678, 3679-3684 (October 11, 2018).

Section 801(b)(7)(A) of the Copyright Act authorizes the Judges to adopt rates and terms negotiated by “some or all of the participants in a proceeding at any time during the proceeding” provided they are submitted to the Judges for approval. This section provides that the Judges shall provide notice and an opportunity to comment on the agreement to (1) those that would be bound by the terms, rates, or other determination set by the agreement and (2) participants in the proceeding that would be bound by the terms, rates, or other determination set by the agreement. See sec. 801(b)(7)(A). The Judges may decline to adopt the agreement as a basis for statutory terms and rates for participants not party to the agreement if any participant objects and the Judges conclude that the agreement does not provide a reasonable basis for setting statutory terms or rates. Id.

If the Judges adopt rates and terms reached pursuant to a negotiated settlement, those rates and terms are binding on all copyright owners of musical works and those using the musical works in the activities described in the proposed regulations.

The Judges solicit comments on whether they should adopt the proposed regulations as statutory rates and terms relating to the making and distribution of physical or digital phonorecords of nondramatic musical works encompassed in subpart B, part 385 of the applicable regulations.

Comments and objections regarding the rates and terms and the revisions to the regulations proposed by the Moving Parties and the Judges must be submitted no later
