These statutes mandate that FSIS protect the public by verifying that meat, poultry, and egg products are safe, wholesome, and properly labeled and packaged.

FSIS is requesting a renewal for the approved information collection regarding applicants that want to obtain specimens of condemned or other inedible materials from official establishments. The applicant must indicate the purpose for the specimens and arrange with and receive permission from the official establishment to obtain the specimens.

Under the regulations, official establishments may release specimens for educational, research or other nonfood purposes under the permit issued by the inspector in charge. The applicant agrees that the collection and handling of the specimens will be at such time and place and in such a manner as not to interfere with inspection or to cause any objectionable condition.
