[Docket Number FRA-2007-28952]

Petition for Extension of Waiver of Compliance

Under part 211 of title 49 Code of Federal Regulations (CFR), this document provides the public notice that on July 29, 2022, Union Pacific Railroad Company (UP) petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR parts 215 (Railroad Freight Car Safety Standards) and 232 (Brake System Safety Standards for Freight and Other Non-passenger Trains and Equipment; End of Train Devices). The relevant FRA Docket Number is FRA-2007-28952.

Specifically, UP requests a waiver extension from 49 CFR 232.205, *Class 1 brake test – initial terminal inspection*, and certain provisions of part 215 related to the inspection of trains entering the United States from Mexico at Eagle Pass, Texas. UP seeks to continue to move trains received in interchange with Ferrocarriles Nacionales de Mexico (FXE) approximately 4.8 miles north of Eagle Pass, Texas, to the facility at Clarks Park, Texas, before an initial terminal air brake test is performed. UP stated in its 2007 petition¹ that the relief would “expedite train movements and avoid blockages of crossings in Eagle Pass.” UP asserts that it has “been operating under the requirements set forth in the waiver for the past fourteen years and no adverse effect on the safety of operations has occurred.”

A copy of the petition, as well as any written communications concerning the
