Abstract: The series of surveys are needed to ensure that technical assistance activities, technology transfer activities and technical forums are useful for those who participate or receive the assistance. Specifically, representatives from State and Tribal regulatory and reclamation authorities are the primary respondents, although representatives of industry, environmental or citizen groups, or the public, may be recipients of the assistance or may participate in these forums. These surveys are the primary means through which OSMRE evaluates its performance in meeting the performance goals outlined in its annual plans developed pursuant to the Government Performance and Results Act.
