*Schedule 318's Online Notice (third party disclosure) Requirement:* 47 CFR 73.3580, as amended in the Commission's 2020 Public Notice Second Report and Order, discussed below, requires local public notice of the filing of all applications to construct a new LPFM broadcast station. Notice is given by an applicant posting notice of the application filing on its station website, its licensee website, its parent entity website, or on a publicly accessible, locally targeted website, for 30 consecutive days beginning within five business days of acceptance of the application for filing. The online notice must link to a copy of the application as filed in the Commission's LMS licensing

database. In the 2020 Public Notice Second Report and Order, the Commission also clarified LPFM stations' obligations to provide local public notice, and amended section 73.801 of the rules to indicate that the local public notice rule, 47 CFR 73.3580, applies to the LPFM service.

FCC staff uses the data to determine whether an applicant meets basic statutory and regulatory requirements to become a Commission licensee and to ensure that the public interest would be served by grant of the application. In addition, the information contained within this information collection ensures that (1) the integrity of the FM spectrum is not compromised, (2) unacceptable interference will not be caused to existing radio services, (3) statutory requirements are met, and (4) the stations operate in the public interest.
