North Dakota Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Proposed rule/ Opening; public comment period and opportunity for public hearing on proposed amendment.

SUMMARY: We, the Office of Surface Mining Reclamation and Enforcement (OSMRE), are announcing receipt of a proposed amendment to the North Dakota regulatory program (hereinafter, the North Dakota program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act). North Dakota proposes changes to the North Dakota Century Code and North Dakota Administrative Code resulting from actions initiated during both the 2017 and 2021 Legislative Sessions. Changes include altering the time required for scheduling and applying for select permit related actions, creation of the North Dakota Department of Environmental Quality and a transfer of select responsibilities from the Department of Health, establishment of the Department of Water Resources, and the powers and duties of that agency and the state engineer. This document gives the times and locations that the North Dakota program and this proposed amendment to that program are available for your inspection, the comment period during which you may submit written comments on the amendment, and the procedures that we will follow for the public hearing, if one is requested.

DATES: We will accept written comments on this amendment until 4 p.m., Mountain Daylight Time (MDT), [Insert date 30 days after the date of publication in the FEDERAL

REGISTER]. If requested, we may hold a public hearing or meeting on the amendment on [Insert date 25 days after date of publication in the FEDERAL REGISTER]. We will accept requests to speak at a hearing until 4 p.m., MDT on [Insert date 15 days after date of publication in the FEDERAL REGISTER].

ADDRESSES: You may submit comments, identified by SATS No. ND-057-FOR, by any of the following methods:

Mail/Hand Delivery: OSMRE, Attn: Jeffrey Fleischman, P.O. Box 11018, 100 East B Street, Room 4100, Casper, Wyoming 82601-1018.

IV. Procedural Determinations

Background on the North Dakota Program

Section 503(a) of the Act permits a State to assume primacy for the regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its approved, State program includes, among other things, State laws and regulations that govern surface coal mining and reclamation operations in accordance with the Act and consistent with the Federal regulations. See 30 U.S.C. 1253(a)(1) and (7).

On the basis of these criteria, the Secretary of the Interior conditionally approved the North Dakota program on December 15, 1980. You can find background information on the North Dakota program, including the Secretary's findings, the disposition of comments, and conditions of approval of the North Dakota program in the December 15, 1980, Federal Register (45 FR 82214). You can also find later actions concerning the North Dakota program and program amendments at 30 CFR 934.15 and 934.30.

Description of the Proposed Amendment

By letter dated November 30, 2022 (Administrative Record No. ND-SS-01), North Dakota sent us an amendment to its program under SMCRA (30 U.S.C. 1201 et seq.). North Dakota sent the amendment at its own initiative to include changes made to both the North Dakota Century Code (NDCC) and the North Dakota Administrative Code (NDAC). House Bill No. 1061, from the 2021 Legislative Session, increased the time for scheduling an informal conference on a permit, significant permit revision, or permit renewal application from 30 days to 45 days. It also changes the time a mining company is required to apply for a permit renewal from 120 days to 180 days prior to permit expiration. Senate Bill No. 2327, from the 2017 Legislative Session, created the North Dakota Department of Environmental Quality and transferred duties from the North Dakota Department of Health related to environmental quality. House Bill No. 1353,

from the 2021 Legislative Session, established the North Dakota Department of Water Resources and identifies the powers and responsibilities of the agency and the state engineer. North Dakota law and rules must be updated to reflect these changes. The full text of the program amendment is available for you to read at the locations listed above under **ADDRESSES** or at www.regulations.gov.

Public Comment Procedures

Under the provisions of 30 CFR 732.17(h), we are seeking your comments on whether the amendment satisfies the applicable program approval criteria of 30 CFR 732.15. If we approve the amendment, it will become part of the State program.

Electronic or Written Comments

If you submit written or electronic comments on the proposed rule during the 30-day comment period, they should be specific, confined to issues pertinent to the proposed regulations, and explain the reason for any recommended change(s). We appreciate any and all comments, but those most useful and likely to influence decisions on the final regulations will be those that either involve personal experience or include citations to and analyses of SMCRA, its legislative history, its implementing regulations, case law, other pertinent State or Federal laws or regulations, technical literature, or other relevant publications.

We cannot ensure that comments received after the close of the comment period (see **DATES**) or sent to an address other than those listed (see **ADDRESSES**) will be included in the docket for this rulemaking and considered.

Public Availability of Comments

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying

information from public review, we cannot guarantee that we will be able to do so.

Public Hearing

If you wish to speak at the public hearing, contact the person listed under **FOR FURTHER INFORMATION CONTACT** by 4 p.m., MDT on [Insert date 15 days after date of publication in the FEDERAL REGISTER]. If you are disabled and need reasonable accommodations to attend a public hearing, contact the person listed under **FOR FURTHER INFORMATION CONTACT**. We will arrange the location and time of the hearing with those persons requesting the hearing. If no one requests an opportunity to speak, we will not hold a hearing.

To assist the transcriber and ensure an accurate record, we request, if possible, that each person who speaks at the public hearing provide us with a written copy of his or her comments. The public hearing will continue on the specified date until everyone scheduled to speak has been given an opportunity to be heard. If you are in the audience and have not been scheduled to speak and wish to do so, you will be allowed to speak after those who have been scheduled. We will end the hearing after everyone scheduled to speak and others present in the audience who wish to speak, have been heard.

Public Meeting

If only one person requests an opportunity to speak, we may hold a public meeting rather than a public hearing. If you wish to meet with us to discuss the amendment, please request a meeting by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**. All such meetings are open to the public and, if possible, we will post notices of meetings at the locations listed under **ADDRESSES**. We will make a written summary of each meeting a part of the administrative record.

IV. Statutory and Executive Order Reviews

Executive Order 12866 - Regulatory Planning and Review and Executive Order 13563—

Improving Regulation and Regulatory Review

Executive Order 12866 provides that the Office of Information and Regulatory Affairs in the Office of Management and Budget (OMB) will review all significant rules. Pursuant to OMB guidance, dated October 12, 1993, the approval of State program amendments is exempted from OMB review under Executive Order 12866. Executive Order 13563, which reaffirms and supplements Executive Order 12866, retains this exemption.

Other Laws and Executive Orders Affecting Rulemaking

When a State submits a program amendment to OSMRE for review, our regulations at 30 CFR 732.17(h) require us to publish a notice in the Federal Register indicating receipt of the proposed amendment, its text or a summary of its terms, and an opportunity for public comment. We conclude our review of the proposed amendment after the close of the public comment period and determine whether the amendment should be approved, approved in part, or not approved. At that time, we will also make the determinations and certifications required by the various laws and executive orders governing the rulemaking process and include them in the final rule.
