### Federal Energy Regulatory Commission

[Docket No. CP23-484-000]

### Southern Star Central Gas Pipeline, Inc.; Notice of Application and Establishing Intervention Deadline

Take notice that on May 22, 2023, Southern Star Central Gas Pipeline, Inc. (Southern Star) 4700 State Route 56, Owensboro, KY, 42301, filed an application under to section 7(b) of the Natural Gas Act (NGA) and part 157 of the Regulations of the Federal Energy Regulatory Commission requesting authorization for its Abandonment by Sale of Kansas Domestic Meters Project. The Project consists of abandon by sale to Kansas Gas Service, a Division of ONE Gas, Inc. (KGS) some 1,042 domestic meters in the State of Kansas. This project is part of Southern Star's ongoing effort to eliminate ownership and operation of domestic meters associated with farm taps on its system. Abandonment of these domestic meters by sale to a qualified local distribution company in Kansas will enable Southern Star to more effectively manage its system, reduce operating costs, and minimize potential liability, while ensuring that the landowners behind these domestic meters will not only continue to receive safe and reliable service, but receive such service from an entity whose primary business is the local distribution of natural gas. Southern Star estimates the total cost of the Project to be \$1,976,966, all as more fully set forth in the application which is on file with the Commission and open for public inspection.

## **PUBLIC PARTICIPATION**

There are three ways to become involved in the Commission's review of this project: you can file comments on the project, you can protest the filing, and you can file a motion to intervene in the proceeding. There is no fee or cost for filing comments or intervening. The deadline for filing a motion to intervene is 5:00 p.m. Eastern Time on **June 22, 2023**. How to file protests, motions to intervene, and comments is explained below.

For instructions on how to intervene, see below.

Any person, which includes individuals, organizations, businesses, municipalities, and other entities,<sup>5</sup> has the option to file a motion to intervene in this proceeding. Only intervenors have the right to request rehearing of Commission orders issued in this proceeding and to subsequently challenge the Commission's orders in the U.S. Circuit Courts of Appeal.

As described further in Rule 214, your motion to intervene must state, to the extent known, your position regarding the proceeding, as well as the your interest in the proceeding. For an individual, this could include your status as a landowner, ratepayer, resident of an impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene. For more information about motions to intervene, refer to the FERC website at <https://www.ferc.gov/resources/guides/how-to/intervene.asp>.
