### Description

#### *Accession 72*

Human remains representing, at minimum, 78 individuals were removed from Butte County, CA. In 1969, the Campbell Site was recorded by Ray L. Milhorn, and in 1971, it was

excavated by Dorothy Hill and the Butte College Anthropology 3 class. After the excavation, the collection was personally stored by Dorothy Hill for an unknown amount of time and then at an unknown date, likely prior to 1974, it was transferred to CSU Chico. No known individuals were identified. The 8,389 associated funerary objects are three organics, 38 lots consisting of debitage, 123 modified stones, 118 projectile points, 519 unmodified shells, 7,436 modified shells and shell fragments, 10 charcoal samples, 32 soil samples, 18 unmodified faunal remains, 64 modified faunal remains, eight modified clay samples, 14 ochre samples, one unidentifiable item, and five oversized stone tools.

### **Cultural affiliation**

The human remains and associated funerary objects in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: anthropological, archeological, historical, and expert opinion.

### **Determinations**

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, CSU Chico has determined that:

- The human remains described in this notice represent the physical remains of 78 individuals of Native American ancestry.
- The 8,389 objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a relationship of shared group identity that can be reasonably traced between the human remains and associated funerary objects described in this notice and the Berry Creek Rancheria of Maidu Indians of California; Enterprise Rancheria of Maidu Indians of California; and the Mooretown Rancheria of Maidu Indians of California.

### **Requests for Repatriation**

Written requests for repatriation of the human remains and associated funerary objects in

this notice must be sent to the Responsible Official identified in ADDRESSES. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains and associated funerary objects in this notice to a requestor may occur on or after [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE **FEDERAL REGISTER**]. If competing requests for repatriation are received, CSU Chico must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. CSU Chico is responsible for sending a copy of this notice to the Indian Tribes identified in this notice.

**AUTHORITY:** Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.9, 10.10, and 10.14.
