

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Docket No. FAA-2023-1427]

Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: National Flight Data Center Web Portal

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The collection involves aeronautical information detailing the physical description and operational status of all components of the National Airspace System (NAS). The information to be collected will be used to update government, military, and private aeronautical databases, charts, publications, flight management systems, and in-flight tracking products.

DATES: Written comments should be submitted by **[INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER]**.

ADDRESSES: Please send written comments:

By Electronic Docket: www.regulations.gov (Enter docket number into search field)

By mail: John Graybill, FAA, Aeronautical Information Services, AJV-A35, Station 5150, 1305 East-West Highway, SSMC-4, Silver Spring, MD 20910

FOR FURTHER INFORMATION CONTACT: John Graybill by e-mail at:

John.Graybill@faa.gov; phone: 202-267-3742

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of

the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120-0754

Title: National Flight Data Center Web Portal

Form Numbers: AD1-ADCP, AD3-ACC

Type of Review: Renewal of an information collection

Background: 49 U.S.C 40103, "Sovereignty and Use of Airspace," authorizes and directs the FAA to develop plans and policy for the use of the navigable airspace. The National Flight Data Center (NFDC) is the authoritative government source for collecting, validating, storing, maintaining, and disseminating aeronautical data concerning the United States and its territories to support real-time aviation activities.

The information collected ensures the safe and efficient navigation of the national airspace. The information collected includes, but is not limited to, data regarding airport associated city, CTAF, UNICOM, facility use, runway lighting, airport sketches and diagrams, proposed aircraft call signs, and general remarks. NFDC collects this information and maintains it in the National Airspace System resources (NASR) database. NASR serves as the official repository for NAS data and is provided to government, military, and private producers of aeronautical databases, charts, publications, flight management systems, and in-flight tracking products at no charge. Information will be collected via digital forms. Failure to collect this information would result in obsolete and inaccurate data being reflected on aviation products.

Respondents: Approximately 5,211 representatives of U.S. public airports; airlines; and aircraft operators. Average of 6,495 responses annually.

Frequency: Information to be collected on occasion.

Estimated Average Burden per Response: 21 minutes for AD1-ADCP, 20 minutes for AD3-ACC, 24 minutes for Call Signs.

Estimated Total Annual Burden: 2,261 hours.

Issued in Washington, DC on June 21, 2023.

John L. Graybill,

Aeronautical Information Specialist,

Data Systems Team, Aeronautical Information Services, AJV-A35.
