**SUPPLEMENTARY INFORMATION:**

*Description:* State child support agencies are statutorily required to enter into data matching agreements with financial institutions doing business in their state to locate obligors' accounts. OCSS operates the MSFIDM program through the Federal Parent Locator Service (FPLS) and facilitates the required data match between state child support agencies and multistate financial institutions (MSFIs). State child support agencies use the data match outcomes to fulfill a statutory requirement to seize an obligor's assets to satisfy past-due child support. OCSS also operates FAST Levy, which is an automated application within the FPLS to exchange electronic lien/levy information securely and efficiently. State child support agencies and financial institutions use FAST Levy to exchange information to freeze and seize financial assets more quickly and efficiently.

*Respondents:* MSFIs and State Child Support Agencies
