k. Description of Request: The licensee proposes a minor modification of the project boundary at the London Development to accommodate planned maintenance of project ancillary facilities. The existing project boundary encompasses security fencing around project facilities. The licensee proposes to relocate and expand the current location of the security fence to improve the physical security of these facilities. The proposed amendment would add 0.257 acres to the project boundary. The licensee states that the relocation of the fence would not change licensed project operations or result in modifications of license conditions. The area where work is proposed is heavily disturbed and immediately adjacent to the project. The licensee intends to complete the fencing improvement in the third quarter of 2023.
