Description

Accession 11

Human remains representing, at minimum, four individuals were removed from the Coleman Rock Shelter site in Butte County, CA. This site was first recorded by Eric Ritter in

1961 and was rerecorded by Keith Johnson of CSU Chico in 1964. When looting by local teenagers unearthed human remains in 1964, the Butte County Sheriff's Department was notified. Records suggest that these human remains were held by the Sheriff's Department and eventually were transferred to CSU Chico. In 1965, a CSU Chico field class excavated the site under the direction of Keith Johnson. The 199 associated funerary objects are five organics, 23 lots consisting of debitage, 71 modified stones, 60 projectile points, two modified shells, one ash sample, two pieces of petrified wood, one soil sample, 14 unmodified faunal elements, 10 modified faunal elements, three pieces of modified clay, two ochre samples, and five modified organics.

Cultural affiliation

The human remains and associated funerary objects in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: anthropological, archeological, historical, and expert opinion.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, the California State University, Chico has determined that:

- The human remains described in this notice represent the physical remains of four individuals of Native American ancestry.
- The 199 objects described in this notice are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a relationship of shared group identity that can be reasonably traced between the human remains and associated funerary objects described in this notice and the Berry Creek Rancheria of Maidu Indians of California; Enterprise Rancheria of Maidu Indians of California; and the Mechoopa Indian Tribe of Chico Rancheria, California.

Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the Responsible Official identified in ADDRESSES. Requests for repatriation may be submitted by:

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains and associated funerary objects in this notice to a requestor may occur on or after [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE **FEDERAL REGISTER**]. If competing requests for repatriation are received, CSU Chico must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. CSU Chico is responsible for sending a copy of this notice to the Indian Tribes identified in this notice.
