NEEDS AND USES: The U.S. Navy Insider Threat Program/Navy Analytic Hub (Navy Hub) is requiring information collection in accordance with Executive Order 13587, “Structural Reforms to Improve the Security of Classified Networks and the Responsible Sharing and Safeguarding of Classified Information,” which directs U.S. government executive branch departments and agencies to establish, implement, monitor, and report on the effectiveness of insider threat programs to protect classified national security information, and requires the development of an executive branch program for the deterrence, detection, and mitigation of insider threats or other unauthorized disclosure. Accordingly, the Navy Hub is soliciting standardized information via OPNAV Form 5510/423, “Navy Insider Threat Report.” The use of this form allows the Navy to collect the required information by means of a single vehicle, rather than through repeated communication. Hence, Navy Hub’s mission is to prevent, detect, deter, and mitigate insider threat risks from potential malicious or unwitting Navy insiders by gathering, integrating, reviewing, assessing, and responding to information about potential insider threats. The OPNAVINST 5510.165B, “Navy Insider Threat Program,” which prescribes this new form, provides instruction to all U.S. Navy commands, activities and field offices with responsibilities as it pertains to Insider Threat.
