B. Submitting Comments

The NRC encourages electronic comment submission through the **Federal rulemaking website** (<https://www.regulations.gov>). Please include Docket ID **NRC-2023-0063**, in your comment submission.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* NRC Form 749, "Manual License Verification Report"/License Verification System.

2. *OMB approval number:* 3150-0223.
3. *Type of submission:* Extension.
4. *The form number, if applicable:* NRC Form 749.
5. *How often the collection is required or requested:* On occasion. Licensees subject to part 37 of title 10 of the *Code of Federal Regulations*, “Physical Protection of Byproduct Material,” license verification requirements must verify the legitimacy of the license with the issuing agency prior to transferring radioactive materials in quantities of concern.
6. *Who will be required or asked to respond:* Licensees are required to complete a license verification under the circumstances noted in 5 above. A License Verification System (LVS) is available to provide an electronic method for fulfilling this requirement. In cases where a licensee is unable to use the LVS to perform a verification, they will provide NRC Form 749 for manual license verification.
7. *The estimated number of annual responses:* 5,278 (589 manual license verification + 4,689 LVS).
8. *The estimated number of annual respondents:* 5,278 (589 manual license verification + 4,689 LVS).
9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 297 (59 manual license verification + 238 LVS)
10. *Abstract:* When a licensee is unable to use the License Verification System to perform their license verification prior to transferring radioactive materials in quantities of concern, a manual process is available, in which licensees submit the NRC Form 749, “Manual License Verification Report.” The form provides the information necessary for the license issuing agencies to perform the verification on behalf of the licensee transferring the radioactive materials.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility? Please explain your answer.

2. Is the estimate of the burden of the information collection accurate? Please explain your answer.

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated: July 25, 2023.

For the Nuclear Regulatory Commission.

David C. Cullison,
NRC Clearance Officer,
Office of the Chief Information Officer.
