I. Background

The Institute of Museum and Library Services is the primary source of federal support for the Nation's libraries and museums. We advance, support, and empower America's museums,

libraries, and related organizations through grant making, research, and policy development. To learn more, visit www.ims.gov.

II. Current Actions

The purpose of the Native Hawaiian Library Services Grants Program is to assist Native Hawaiian libraries in improving core library services for their communities. IMLS recognizes that information needs and approaches to meeting them are evolving at an unprecedented pace in all communities, and to operate within this environment effectively for the benefit of their users, libraries must be able to both strengthen existing services and move quickly to adopt new and emerging technologies.

The three goals for this program will be to improve digital services to support needs for education, workforce development, economic and business development, health information, critical thinking skills, and digital literacy skills; to improve educational programs related to specific topics and content areas of interest to library patrons and community-based users; and to enhance the preservation and revitalization of Native Hawaiian culture and language.
