FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Carrie Clarady, (202) 245-6347.

SUPPLEMENTARY INFORMATION: The Department, in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. The Department is soliciting comments on the proposed information collection request (ICR) that is described below. The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: 2020/25 Beginning Postsecondary Students (BPS:20/25) Field Test

OMB Control Number: 1850-0631

Type of Review: Revision of a currently approved ICR

Respondents / Affected Public: Individuals or households

Total Estimated Number of Annual Responses: 6,927

Total Estimated Number of Annual Burden Hours: 1,279

Abstract: The 2020/25 Beginning Postsecondary Students Full-Scale (BPS:20/25) is conducted by the National Center for Education Statistics, part of the Institute of Education Sciences, within the Department of Education, and is part of the Beginning Postsecondary Students Longitudinal Study data collection program at <https://nces.ed.gov/surveys/bps/>. BPS is designed to follow a cohort of students who enroll in postsecondary education for the first time during the same academic year, irrespective of the date of high school completion. The study collects data on students' persistence in and completion of postsecondary education programs; their transition to employment; demographic characteristics; and changes over time in their goals, marital status, income, and debt, among other indicators. Data from BPS are used to help researchers and policymakers better understand how financial aid influences persistence and completion, what percentages of students complete various degree programs, what are the early employment and wage outcomes for certificate and degree attainers, and why students leave school.

The BPS:20/25 field test will include approximately 3,280 students who first began in the 2018-19 academic year. BPS:20/25 will be a nationally-representative sample of approximately 34,240 students who were first-time beginning students during the 2019-20 academic year. These students will be asked to complete a survey and administrative data will also be collected for them. Administrative data matching will be conducted with sources including the National Student Loan Data System (NSLDS), containing federal loan and grant files; the Central Processing System (CPS), which houses and processes data contained in the Free Application for Federal Student Aid (FAFSA) forms; the National Student Clearinghouse (NSC) which provides enrollment and degree verification; vendors of national undergraduate, graduate, and professional student admission tests; and possible other administrative data sources such as the Veterans

Benefits Administration (VBA). These data will be obtained through file matching/downloading.

This submission is designed to adequately justify the need for and overall practical utility of the full study, presenting the overarching plan for all phases of the data collection and providing as much detail about the measures to be used as is available at the time of this submission. As part of this submission, NCEC will publish a notice in the Federal Register allowing first a 60- and then a 30-day public comment period. Field test materials, procedures, and results will inform the full-scale study. After completion of the field test, NCEC will publish a notice in the Federal Register allowing an additional 30-day public comment period on the final details and materials of the BPS:20/25 full-scale study.
