**[Project No. 14775-005]**

### **Marine Renewable Energy Collaborative of New England; Notice of Availability of Environmental Assessment**

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for a hydrokinetic pilot project license to construct and operate the Bourne Tidal Hydrokinetic Test Site Project (Bourne Tidal Project, or project). The project would be located on the Cape Cod Canal in Barnstable County, Massachusetts. Commission staff has prepared an Environmental Assessment (EA) for the proposed project.

The EA contains staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major Federal action that would significantly affect the quality of the human environment.

The Commission provides all interested persons with an opportunity to view and/or print the EA via the Internet through the Commission's Home Page (<http://www.ferc.gov/>), using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field, to access the document.
