Written comments and suggestions from the public and affected agencies should address one or more of the following four points:

- (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden of the proposed

collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of this information collection:

(1) Type of Information Collection: Extension, Without Change, of a Currently Approved Collection.

(2) Title of the Form/Collection: Application for Certificate of Citizenship.

(3) Agency form number, if any, and the applicable component of the DHS sponsoring the collection: N-600; USCIS.

(4) Affected public who will be asked or required to respond, as well as a brief abstract:
Primary: Form N–600 collects information from applicants who are requesting a Certificate of Citizenship because they acquired United States citizenship either by birth abroad to a U.S. citizen parent(s), adoption by a U.S. citizen parent(s), or after meeting eligibility requirements including the naturalization of a foreign-born parent. Form N–600 can also be filed by a parent or legal guardian on behalf of a minor child. The form standardizes requests for the benefit and ensures that basic information required to assess eligibility is provided by applicants. USCIS uses the information collected on Form N–600 to determine if a Certificate of Citizenship can be issued to the applicant. Citizenship acquisition laws have changed over time and different laws apply to determine whether the applicant automatically became a U.S. citizen depending on the dates of relevant events, such as the child’s date of birth. USCIS may request that applicants who reside within the United States attend an appointment at a USCIS Application Support Center to have a photograph taken. USCIS may also require applicants to submit additional biometrics under 8 CFR 103.2(b)(9).

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: The estimated total number of respondents for the information collection N-600 (paper-filed) is 26,810 and the estimated hour burden per response is 1.5 hours; the estimated total number of respondents for the information collection N-600 (online filing) is 28,190 and the estimated hour burden per response is 0.75 hours; the estimated total number of respondents for the information collection biometrics submission is 36,500 and the estimated hour burden per response is 1.17 hours.

(6) An estimate of the total public burden (in hours) associated with the collection: The total estimated annual hour burden associated with this collection is 104,063 hours.

(7) An estimate of the total public burden (in cost) associated with the collection: The estimated total annual cost burden associated with this collection of information is \$7,081,250.00.
