SUPPLEMENTARY INFORMATION:

Agenda:

The Advisory Panel will review Framework Adjustment (FW) 38: Receive an update and provide input on a range of potential access area and DAS allocations for the 2024 and 2025 fishing years. Council staff will update the group on any modifications the Council may make to the scope of this action at the September Council meeting. FW 38 will set specifications including ABC/ACLs, days-at-sea, access area allocations, total allowable landings for the Northern Gulf of Maine (NGOM) management area, targets for General Category incidental catch, General Category access area trips, and set-asides for the observer and research programs for fishing year 2024 and default specifications for fishing year 2025. They also plan to discuss the Northern Edge Framework: Receive an update on progress and review the timeline for this action. They will also develop recommendations for possible 2024 scallop work priorities. Other business will be discussed, if necessary.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.
